Grove remote reservoirs are quality machined tool which simplifies the brake bleeding job. This brake line bleeder can be used to service all brake assemblies utilizing the bleeder screw assembly pictured above. P/N 06-01202 ........ $144.75

**HYDRAULIC BRAKE BLEEDER TANK**

**BRAKE BLEEDER VALVES FOR CLEVELAND & MCCAULEY WHEELS**

The bleeder valves consist of a bleeder needle, bleeder seat, needle cap, and in some cases an O-ring. Bleeder seat valves are precision manufactured from stainless steel for corrosion resistance, and cadmium plated to prevent galvanic corrosion with the magnesium housing. The bleeder valve body is made from strong, heat treated 17-4 stainless steel. Two kits are required per aircraft. FAA Approved.

**ECONOMY BLEEDER TANK**

Preferred by some customers. For use in normal installations only, no bleeders are used. 1/8" male NPT female adapter for connection to the master cylinder. The reservoir is held in place with a snap ring with O-ring seal. Supplied with vented 1/8" NPT cap plug. Anodized for corrosion resistance. Normal installation requires two (one for each master cylinder). Supplied with 1/8" NPT fitting. Attaches directly to the master cylinder. Holds 1.10 fluid ounces. 1.98" High. 1.38" Dia. 1.5 oz. P/N 06-00818 ................ $44.95

**BRAKE BLEEDER SCREW PLUG**

Steel set screw with nylon flat point 1/4-28x3/8" Bleeder screw plug. P/N 06-01674 ................. $1.88

**90 DEGREE COMPRESSION FITTING**

90° Compression fitting 1/8" NPT x 1/8" Tube. P/N 06-01673 ............... $19.95

**ACS MODEL A-315 RESERVOIR**

Machined from 6061T6 billet and anodized for improved corrosion resistance. Available with choice of filler port location for firewall or floor mounting. Capacity 5 oz. Size: 2-1/4" dia. x 2-1/2" long. Wt: 7oz. Specify style: P/N 06-01674 ................. $19.95

**ACS MODEL A-600 RESERVOIR**

Machined from 6061T6 billet. Cap is threaded into body and sealed with a Viton o-ring for easy filling and cleaning. Cap and body have 1/8" female threads. 1-9/16" dia. x 2-3/8" high. Capacity 1.8 oz. Can be threaded directly into master cylinder port. Two units required on most installations (one per master cylinder). Supplied with vented plug in cap and 1/8" NPT fitting in body. P/N 06-00391 .......... $25.95 ea.

**ACS MODEL A-650 RESERVOIR**

Machined from 6061T6 billet and anodized for improved corrosion resistance. Attaching bracket is included for firewall or other installation. Extra capacity of 70 ml. Supplied with vented plug in cap and outlet has a female 1/8 NPT thread. P/N 06-01480 ................. $39.65

**BEECHCRAFT STYLE BRAKE RESERVOIR**

12oz & 8oz Available in Silver or White. Silver 8 oz ................. $104.75 P/N 05-07196 White 8 oz .................. $103.75 P/N 05-07196 White 12 oz .................. $103.75 P/N 05-07118

**KRAFT WHEELS**

**BRAKE RESERVOIR**

Assembled with bleeder valve. Supplied with vented plug in cap and outlet is a female 1/8 NPT Thread. P/N 06-01480 ................. $39.65

**MATCO BRAKE BLEEDER VALVE ASSEMBLY**

Matco brake bleeder valve assembly MSCBB5(S). S. Latest generation bleeder assembly provides a leak and wicking feature for either US or metric sizes. P/N 06-02801 ........... $17.70

**MATCO BRAKE FLUID RESERVOIR**

This brake fluid reservoir from Matco features a clear plastic bowl for easy inspection of reservoir fluid. Furnished with pre-filled aluminum flange for easy mounting. Small and compact, this reservoir mounts almost anywhere. Temperature limit is 250°F Reservoir only. P/N 06-11225 ............... $33.50

**PETRO BRAKE BLEEDER**

**PETRO BRAKE BLEEDER**

Standard air bleeder. Designed for ultimate versatility for use with hydraulic systems. The bleeder valve is capable of being used at any point in the line. Can be used on aircraft that are not pressurized, in the event of a leak in the line or for the installation of a new brake line. P/N 06-00120 ............... $56.75

**GROVE BRAKE FLUID RESERVOIRS**

**067-850** - Grove remote reservoirs are quality machined from 6061 billet. Top is held in place with a snap ring with O-ring seal. Supplied with vented 1/8" NPT cap plug. Anodized for corrosion resistance. Normal installation requires two (one for each master cylinder). Supplied with 1/8" NPT fitting. Attaches directly to the master cylinder. Holds 1.10 fluid ounces. 1.98" High. 1.38" Dia. 1.5 oz. P/N 06-00818 ............... $44.95

**067-067** - Grove remote reservoirs are quality machined from 6061 billet. Top is held in place with a snap ring with O-ring seal. Supplied with vented 1/8" NPT cap plug. Anodized for corrosion resistance. Attaches to firewall or other remote location with integral 10-32 tapped holes. 1/8" Female NPT thread at side of reservoir and hold 3.25 fluid ounces. 2.63" High. 2.00" Dia. 3.3 oz. P/N 06-01744 ............... $59.85

**067-054** - Grove remote reservoirs are quality machined from 6061 billet. Top is held in place with a snap ring with O-ring seal. Supplied with vented 1/8" NPT cap plug. Anodized for corrosion resistance. Attaches to firewall or other remote location. Adequate capacity to serve both master cylinders. 1/8" Female NPT thread at bottom of reservoir and hold 3.6 fluid ounces. 2.75" High. 1.75" Dia. 3.6 oz. P/N 06-00819 ............... $54.75

**067-065** - Grove remote reservoirs are quality machined from 6061 billet. Top is held in place with a snap ring with O-ring seal. Supplied with vented 1/8" NPT cap plug. Anodized for corrosion resistance. Attaches to firewall or other remote location with integral 10-32 tapped holes. 1/8" Female NPT thread at bottom of reservoir and hold 3.8 fluid ounces. 2.75" High. 2.00" Dia. 3.3 oz. P/N 06-01743 ............... $59.75

**BERINGER PARKING BRAKE VALVE**

**BERINGER PARKING BRAKE VALVE**

P/N 06-01107 ............... $315.00

**BERINGER PARKING BRAKE VALVE**

P/N 06-01108 ............... $316.00
