**ENGINE GAUGES**

**MID-CONTINENT INSTRUMENTS AND AVIONICS CARBURATOR TEMPERATURE INDICATORS**

The MD-11 carburetor temperature gauge & B-5 temp. probe are designed to help eliminate carbicerol icing by early detection, reduce spark plug fouling, extend engine life, increase range & power, and maximize fuel economy. Designed for use with most Marvel-Schebler & Bendix float type carburetors. FAA approved. Mounts in 2-1/4" instrument hole.

14V carb air temp indicator only .......... P/N 10-02759 .......... $95.00
28V carb air temp indicator only .......... P/N 10-11700 .......... $108.75
B-5 probe only ................................ P/N B-5 .......... $39.60
Mating Connector ............................ P/N 10-01563 .......... $13.50
14V Carburetor Air Temperature Kit ........ P/N 10-02759 .......... $93.80
28V Carburetor Air Temperature Kit .......... P/N 10-02760 .......... $97.30

**2-1/4" UMA MANIFOLD PRESSURE GAUGES**

Manifold pressure is one factor used to obtain correct power setting of the engine. The indicators are temperature and altitude compensated. Matte-black dials. Units are new, Manufactured by UMA.

2-1/4" Gauge, 10-50 Hg. ............... P/N 10-11200 .......... $168.75
2-1/4" Gauge, 10-35 Hg. ............... P/N 10-11250 .......... $168.75
UMA optional internal lighting : P/N 11-07239 .......... $56.75

**FALCON 3 1/8" MANIFOLD GAUGE**

Falcon Gauge Manifold Pressure Gauge is designed and manufactured for use on aircrafts and is a standard differential pressure instrument. This indicator is temperature and altitude compensated. Matte-white dials.

- 3-1/8" Gauge, 10-50 Hg. .......... P/N 10-12000 .......... $8.75
- 3-1/8" Gauge, 10-35 Hg. .......... P/N 10-12050 .......... $8.75

**UNITED TSQ'D MANIFOLD PRESSURE GAUGES**

- 3-1/8" Dial, 10-50 Hg. .......... P/N 10-05454 .......... $48.90
- 3-1/8" Dial, 10-35 Hg. .......... P/N 10-05455 .......... $48.90

**UMA FUEL/AIRBOX DIFFERENTIAL PRESSURE GAUGE**

Displays the differential pressure between the fuel system and air box on turbo charge engines where it is necessary to maintain constant fuel pressure that is above atmospheric pressure. Sender sold separately. (Requires the use of a 1EU007D UMA different pressure sender.)

- 1 1/4" ................................................. P/N 10-00979 .......... $200.00
- 0-80 PSI ......................................... P/N 10-00980 .......... $145.00

**ROCHESTER OIL PRESSURE GAUGE**

Rochester pressure gauge has matte-white dial with black bezel. Mount in 2-1/16" dia. hole. 1/8" NPT port fits AN910-1D coupling. New metric: 0-80 PSI." .......... P/N 10-00015 .......... $39.75

- *Chrome Bezel*

**ROCHESTER OIL TEMPERATURE GAUGES**

Rochester oil temperature gauges have matte-white dial with black bezel. Mount in 2-1/16" dia. hole. New manufacture. Furnished with one 5/8-18UNF X 5/8-18UNF adapter nut. Available in the following temperature ranges and capillary lengths.

- P/N 10-11600 -60°C to +260°C - 60" Cap. .......... $85.00
- P/N 10-11700 -100°C to +55°C - 72" Cap. .......... $108.75
- P/N 10-11800 -25°C to +144°C - 72" Cap. .......... $107.95
- P/N 11-1900 -100°C to +55°C - 48" Cap. .......... $109.85

Adapter Nuts Only: 44-0024 5/8-18UNF X 5/8-18UNF .......... $11.95

**MECHANICAL OIL TEMPERATURE GAUGE**

A quality gauge which is complete with all installation fittings. Range is 100-250° F. 5/8"-18 female capillary adapter fittings - 60° lead length. Not FAA approved. **$114.75**

**OIL TEMPERATURE BULB ADAPTER**

**MILITARY OIL PRESSURE GAUGE**

**MECHANICAL OIL PRESSURE GAUGE**

Scott’s quality Oil Pressure Gauge features 0-120 PSI range and 1/8 NPT thread on fared tube fitting. Not FAA approved. **$259.95**

**OIL PRESSURE INSTALLATION KIT**

This kit contains 4 Weatherhead brass fittings with 1/8" pipe thread & 6 ft. of 1/8" Nylo-Seal tubing. Compatible with most mechanical oil pressure gauge installations. P/N 10-12000 .......... $8.75

**RV-12 REMOTE OIL PRESSURE SENSOR MOUNTING KIT**

A new remote oil sensor kit for the RV-12 engine. While the lengths of this package are designed specifically to fit an RV-12, the hose length should work in virtually any 912 installation.

- P/N 10-01668 .......... $467.00

**3-IN-1 GAUGES (ELECTRIC OIL TEMP)**

Oil temperature range is -50° to 150°C, oil temperature 200 psi, fuel pressure 0-25 psi. The pressure gauges operate by direct connection to the appropriate system and the oil temperature by an electrical resistance bulb probe. New installation requires Cannon plugs & cable clamps for instrument and resistance bulb.

- Certified Overhauled Unit - Gauge: P/N 10-12900 .......... $745.00
- 3-IN-1 White Electric Gauge Farenheight: P/N 10-03144 .......... $749.00
- MS3106A-1 25 PSI Cannon Plug: P/N 10-00987 .......... $3.70
- MS28034-1 Res. Bulb: P/N 10-00983 .......... $293.95

**KELLY MANUFACTURING OIL TEMPERATURE SENSORS**

Our Torque Indicators are a wet line, direct reading bourdon tube type instrument, housed in a 2" diameter case. Unit can be calibrated over a wide rage of PSI input to direct read torque. Units can be furnished to your specifications. Indicate needed pressure input and pressure-to-torque conversion. This unit cannot be damaged by oil back up in vent line. Dimensions: 2" diameter x 2.125" length. Weight: 0.4 lbs. Power: Wet line direct reading pressure gage.

- P/N 10-00494 .......... $469.00
