SPIRAL WIRE PROTECTORS

Permits flexible routing of cable harness while forming a neat, protective bundle. It twists on easily and quickly and allows lead-outs at any point. When installed, it may be gapped for greater economy and flexibility or permits flexible routing of cable harness while forming a neat, protective bundle. It twists on easily and quickly and allows lead-outs at any point.

AMP® SPIRAP SPIRAL PLASTIC TUBING

Spiral plastic tubing is a fast and economical way to bundle wires and harnesses. It is designed to protect wire insulation for the life of the circuit even under severe vibration. Spirap tubing obtains its gripping ability from the memory of the plastic. When 1/4” diameter Spirap is wrapped around a 3/4” diameter wire bundle, the Spirap tubing returns to its original 1/4” diameter. Black ...............P/N 11-08320 ........ $1.95

CABLE TIE ASSORTMENT PACK

Length: 4”; Strength: 18 lbs. P/N 11-12365 ........ $0.44

COBRA® CABLE TIE KITS

STANDARD Kit includes: 100 low profile black COBRA® ties, the rugged Cinch&Trim application gun and an instruction manual. Gun applies traditional as well as low profile ties.

COBRA® RUBBER MOUNTS

With a contoured locking head, the COBRA configuration is safer, more flexible and stronger than existing cable ties. Safer because the (often barbed) stub is now deflected into a pocket at the rear of the head. More flexible because the flat lock section curves to the bundle contour and stronger because the COBRA uses an inline geometry, eliminating the stress points of traditional cable ties. Bundles down to 3/8” diameter and meets new AS 3361 specs. Features pick-proof underside lock & all rounded edges.

COBRA® FLEXROUTE TIES

A universal, durable, and simple cable management solution that secures and protects both the frame and cable. Utilizes the lowest profile nylon cable tie on the market.
P/N 11-16360 $6.70
