XCOM & TRIG TRANSCIEVERS

XCOM REMOTE HEAD

The newest addition to the XCOM range is the XCOM VHF Remote Head option. Interfacing with the XCOM VHF, this tiny unit provides remote access to all of the capabilities of the XCOM VHF Radio in one quarter of the space. Ideal for training situations, tandem seat aircraft, limited space installations or simply to provide easy access for both pilot and co-pilot, this unit duplicates the entire XCOM VHF display and provides full access to all functions (except power on) from the front panel of the radio. The connection between the remote head and the XCOM VHF radio is via a simple cable allowing all of the controls on either panel to be duplicated on the remote. When the master unit is changed, the remote head follows and vice versa. For example, if the pilot in the front seat of the aircraft adjusts the radio to 123.450 then the remote display also adjusts to show 123.450. If the toggle button is pressed on the remote, then the frequencies are toggled on both units. All of the XCOM also adjusts to show 123.450. If the toggle button is pressed on the seat of the aircraft adjusts the radio to 123.450 then the remote display to be duplicated on the remote. When the master unit is changed, the radio is via a simple cable allowing all of the controls on either panel.

TRIG TY91/TY92 DUAL CONTROL TRANSCIEVERS

The TY91/TY92 is an innovative two-part radio with a remote mounted radio and a panel mounted controller. A crisp clear display and simple user interface. The ‘Dual Watch’ feature allows the monitoring of two frequencies at the same time. There are 9 pre-set channel memories which are all easily selectable. The radio can integrate with popular GPS units: this allows the automatic display of en-route radio frequencies (uses industry standard SL40 protocol). Also has a built-in two place intercom with an aux input, saving further cost and weight. EASA ETSO and FAA TSO certification. Two controller option for tandem cockpits. Unbeatable value and quality – designed and manufactured in the U.K.

Two year worldwide warranty.

| TY92 | P/N 11-13444 | $2,899.00 |

TRIG TY97 SLIMLINE VHF

Trig’s TY97 aviation radio sets a new standard in high power dual 25 kHz and 8.33 kHz radio design. Combining great quality and performance each radio is housed within a superbly engineered unit, slim-line and light. At only 33mm high (1.3”) the radio saves valuable stack space, but retains innovative and practical features. The TY97 is a 16 Watt certified radio, designed for high performance aircraft with a 28 volt power output. With enhanced performance the TY97 ensures successful reception and transmission over long distance or from high altitudes.

| TY97 | P/N 11-14888 | $2,655.00 |
| TY97A 25 kHz | P/N 11-15377 | $2,559.00 |

TRIG TY91 VHF RADIO SYSTEM

The majority of GA users including light sport, ultra-light, glider and balloon pilots will fit the Trig TY91 radio, this lower powered 6 watt model is ideal for the majority of applications. Features:

- Can be set at 25 kHz and 8.33 kHz + Receiver - Class C, Class E / Transmitter - Class 4, Class 6
- 1 Watt power output
- Compact and lightweight
- Take up minimal space and weight
- Dual watch and two place intercom
- Operation is simple, rapid frequency selection
- Nine programmable memories
- Can be battery operated
- Full certified
- Complements Trig’s TY96 SLIMLINE VHF radio
- Dual 25 kHz and 8.33 kHz
- Mode S Transponder
- Rugged, reliable and powerful
- Unbeatable value and quality – designed and manufactured in the U.K.
- Two year worldwide warranty.

TRIG TY96 SLIMLINE VHF RADIO

The TY96 aviation radio is designed to provide fast switching between 8.33 kHz and 25 kHz. Its slimline and lightweight design—at only 33mm in height—saves valuable stack space while retaining innovative and practical features. The TY96 is a certified 10 watt radio designed for general aviation and light sport applications and is ideally suited to the needs of experienced and novice pilots alike.

| TY96 | P/N 11-14888 | $2,655.00 |
| TY96A 25 kHz | P/N 11-15376 | $1,655.00 |

TRIG TT22 MODE S TRANSPONDER

Trig makes the world’s smallest and lightest certified GA transponders. The TT22 Trig compact transponder can fit into the tiniest panel space. This allows general aviation, light sport and glider pilots to fit other instrumentation or displays that otherwise might not have been possible. The TT22 is a class 1 transponder suitable for use in higher performance aircraft flying above 15,000 feet and / or above 175 knots. Compact size - takes minimal panel space, fits in a standard instrument hole. Integrated altitude encoder - Certified for IFR / VFR flight. Certified class 1 transponder 250 watts nominal output. Low weight – 440g (0.8 lbs). Low power consumption. 1090ES ADS-B Out capable. EASA ETSO and FAA TSO Certification – includes TSO C166b the latest ADS-B standard. Unbeatable value and quality - designed and manufactured in the U.K. Two year worldwide warranty.

| TT22 Transponder | 01-06322 | $1,899.00 |
| TT22 Transponder and 4 ft. Harness | 11-12078 | $2,166.00 |
| TT22 Transponder and Custom Harness | 11-12079 | $2,232.00 |
| TT22 and TN70 ABS-B Out Combo | 11-14872 | $3,829.00 |
| TT22 and TN70 ABS-B Out Combo with 4ft Harness | 11-14874 | $4,077.00 |

XCOM INSTRUCTIONAL DVD

Instructional DVD explaining the complete operation and set-up of the XCOM VHF Transceiver. 30 minutes duration.

| DVD | P/N 11-05674 | $394.00 |

XCOM GLIDER BOOM MICROPHONE

Boom Microphone - More than 1200 made and used all over the world, 3 year guarantee.

| MICROPHONE | P/N 11-05675 | $169.99 |

XCOM GLIDER SPEAKER

Glider Speaker - Clear sound and easy to understand 5 watts output 8 ohm.

| SPEAKER | P/N 11-05676 | $42.50 |

XCOM VOLTAGE CONVERTER 15-38V

| CONVERTER | P/N 11-05680 | $210.95 |

XCOM STEREO VIDEO PATCH CABLE

Seamlessly connect a Stereo or Mono Video Camera, Tape Recorder or Digital Voice Recorder into your aircraft headsets and record all communications between the Pilot and Co-Pilot, ATC and other Aircraft. Perfect for making your own aviation videos with crystal clear narration, flight training or many other uses.

| PATCH CABLE | P/N 11-05658 | $43.00 |

TRIG TY96 SLIMLINE VHF RADIO

The TY96 aviation radio is designed to provide fast switching between 8.33 kHz and 25 kHz. Its slimline and lightweight design—at only 33mm in height—saves valuable stack space while retaining innovative and practical features. The TY96 is a certified 10 watt radio designed for general aviation and light sport applications and is ideally suited to the needs of experienced and novice pilots alike.
