## EQ-LINK WIRELESS HEADSET SYSTEM

The EQ-Link Headset offers wireless freedom in the aviation cockpit. The EQ-Link module plugs into standard general aviation inputs on the aircraft's audio panel and provides a 2.4 GHz frequency hopping link (not Bluetooth®) to the EQ-1 ANR Headset. Now you can enjoy all of the features of a premium ANR headset with none of the wires!

Plug and Play operation. No installation required. The EQ-Link Headset plugs into your aircraft's audio panel just like any other conventional wired headset and can be used in combination with other brand of wired headset being used in the aircraft's intercom system. Comes supplied with EQ-1 Headset, EQ-Link wireless module, USB wall charger (with international charging adapters), USB charging cables for EQ-1 Headset and EQ-Link module.

System with Dual GA Plugs ..... P/N 11-11335 .....**\$989.00**  
System with Helicopter Plugs ..... P/N 11-11377 .....**\$989.00**  
Replacement Headset ..... P/N 11-11336 .....**\$750.00**

## EQ REVERSE LINK SYSTEM

The EQ-Reverse/Link system represents a breakthrough in wireless headset communications. Now any aviation headset can have the same wireless freedom as our popular EQ-Link single headset system. The EQ-Reverse/Link system is comprised of the EQ-Link and EQ-Reverse/Link modules. Any standard aviation headset can be plugged into the Reverse/Link while the EQ-Link is plugged

into the aircraft's intercom system. A wireless link is provided by EQ-1's tried and true 2.4 Ghz, TDMA protocol, (not Bluetooth) R.F. link to provide crystal clear and interference free communications up to 30 feet away from the audio panel. P/N 11-12106 .....**\$919.00**

## EQ LINK 4 PLACE MULTI HEADSET SYSTEM

The EQ-Link module plugs into standard general aviation inputs on the aircraft's audio panel and provides a 2.4 GHz frequency hopping link (not Bluetooth®) to the EQ-1 ANR Headset. Now you can enjoy all of the features of a premium ANR headset with none of the wires! Plug and Play operation. No installation required. The EQ-Link Headset

plugs into your aircraft's audio panel just like any other conventional wired headset and can be used in combination with other brand of wired headset being used in the aircraft's intercom system. Comes supplied with EQ-1 Headset, EQ-Link wireless module, USB wall charger (with international charging adapters), USB charging cables for EQ-1 Headset and EQ-Link module. P/N 11-12107 .....**\$3,239.00**

## EQ-1 BLUETOOTH MOBILE PHONE ADAPTER FOR EQLINK HEADSET

The EQ-1 Mobile phone adapters will allow EQ-Link users to answer and send mobile phone call directly from their EQ-1 Wireless Headset. P/N 11-12031 .....**\$217.00**
