

# LYNX HEADSETS - HELMETS - INTERCOMS

## LYNX PILOT SYSTEM

The Pilot System is a range of headsets and helmets for use in light aircraft and helicopters. The main advantage of these products are that they provide an integrated headset and helmet system for use in aircraft which have standard twin jack intercom equipment already installed. Headset Colors: Black, White, Grey, Red, Pink, Blue, Yellow or Green

Part No.	System Equipment	Description	Price
11-05394	Pilot System Headset + Lead	Standard general aviation headset.	<b>\$510.00</b>
11-05395	Twin Jack Headset Lead	Interchangeable lead for Pilot headset.	<b>\$98.75</b>
11-05396	US NATO Headset Lead	Interchangeable lead for Pilot headset.	<b>\$104.00</b>
11-05397	UK NATO (Euro) Headset Lead	Interchangeable lead for Pilot headset.	<b>\$85.00</b>

**NOTE:** Pilot System uses the same helmet, helmet visor, visor extension, leather helmet, helmet goggles, helmet bag, headset bag, and double helmet bag as the Micro System. Order part numbers as shown for Micro System Components.

## LYNX CLOTH HELMET BAG

A soft cloth bag used to store an individual integral helmet. The bag is made from fleece cloth and incorporates a drawstring closure. The bag provides suitable protection for a helmet when not being used. The bag is particularly practical for storing a helmet which is fitted with a visor (face shield) as it will protect the visor and increase its useful life considerable. P/N 11-14785 .....**\$17.50**

## LYNX PADDED HELMET BAG

A padded nylon holdall to protect and carry integral helmets. Internal partitions are provided to hold two helmets and additional accessories. A document pocket and three separate pockets for other items, such as radio equipment, are also provided. P/N 11-14784 .....**\$175.00**

## LYNX PILOT SYSTEM HELMET PLUS LEAD

The Pilot System Integral Helmet is specifically designed for use in high noise environments and provides both hearing protection and streamlined full face head protection. The helmets are fitted with interchangeable leads which allow them to be used with all of the different types of connector found in aviation. The helmets are specifically designed to work in open cockpit aircraft and integrate with the modular Lynx Pilot System intercom to provide a plug-anti-play communication and radio system. The helmet is also available in versions compatible with any other aircraft intercom system; this includes standard general aviation systems which use twin jack plugs, microlight systems which use single Jack plugs and gyro-copler systems which use six pin connectors.

Small.....P/N 11-14779 .....**\$1,081.00**  
 Medium.....P/N 11-14847 .....**\$1,082.00**  
 Large .....P/N 11-14848 .....**\$1,081.00**  
 X-Large.....P/N 11-14849 .....**\$1,081.00**

## LYNX RELAI SYSTEM

The relai System is a range of headsets and helmets for direct connection to hand-portable radios. This equipment also provides the facility to use a helmet with the headset and is used mainly by pilots of single seat aircraft, Paramotor pilots and airport ground crew. Headset Colors: Black, White, Grey, Red, Pink, Blue, Yellow or Green **\*Please specify the make and model of radio that will be used with the Relai System Headset.**

Part No.	Description	Price
11-05398	Relai System Headset + Radio Module.	<b>\$491.00</b>
11-05400	Lynx Avionics Relai System headsets to be used with the following radios: Alinco, Cobra, Delcom, Icom A2/A20/A21,JRC,Maxon,Motorola, Radio Shack, Yaesu FT-23R,YAESU 2000	<b>\$17.00</b>
11-05401	Lynx Avionics Relai System headsets to be used with the following radios: ICOM A3/A4/A6/A22/A24 ICOM A5/A23	<b>\$46.00</b>
11-05402	Allows Lynx Avionics Relai System headsets to be used with the following radios:ICOM A3/A4/A6/A22/A24/ ICOM A5/A23	<b>\$17.00</b>
