WRENCH TYPE RIVET NUT TOOL

L-1000 ECONOMY HAND RIVET NUT TOOL
The L-1000 economy hand Rivet Nut tool is recommended for slotted rivet nut fasteners. Adequate for aluminum, brass, and stainless steel fasteners. Made in U.S.A. Order by part number. L-1000 is same tool, except in metric sizes.

Rivet Nuts are seated tighter than with conventional tools. Far greater load bearing capability than a regular sheet metal screw. The rivet nut tool is proudly made in the USA. For use with aluminum rivet nuts or steel rivet nuts.

RIVET NUT TOOL WITH METRIC MANDRELS
The Riv-Nut Puller was designed for installation of steel and aluminum rivet nuts. High speed, push-pull action. Available in sizes 6/32, 8/32, and 10/32.

BLIND RIVET REMOVAL TOOL
This rivet removal tool allows you to remove those stubborn Pop, Avdel, Cherry-Q, and other blind rivets. The serrated nosepiece fits over any button head, round head, or universal head rivet and locks in place to keep it from spinning as it’s being drilled out. It will also remove solid rivets. Includes adapters to remove 3/32", 1/8", 5/32", and 3/16" rivets.

Prices Subject to Change Without Notice

LUFKIN METRIC/INCH TAPE MEASURE
LUFKIN NO. WS21DME Has 1/2" blade, 3 meters long (equal to about 10 ft.). Markings are on one side only, with millimeters on upper edge and inches to 16ths on lower edge. White face.

STANLEY DECIMAL INCH TAPE MEASURE
This 12-ft. tape measure with 1/2" blade is graduated in tenths & hundredths of inches and also in fractions (32nds). Very easy for building composite aircraft.

SMART TOOL DIGITAL INCLINOMETER
Smart Tool is a unique digital inclinometer with up to 0.1º of repeatable accuracy. Measures and displays any angle through 360º, and readings can be relative to any angle. Smart tool even calculates complicated slope measurements in either percent or inches per foot. It is sunlight viewable, features 3 sensitivity settings, and has a 120-hour battery life with auto shut-off. Powered by any 9V battery.

INSTANT MAGNETIC ANGLE FINDER
DASCO PRO angle finders are molded of high impact plastic and allow the user to read any angle instantly and accurately from 0º to 90º in any quadrant. Accurate to within 1/2º of 1º. Not affected by magnetic fields, cold or heat. Angle and grade chart on back shows angles in degrees and converts them to pitch per inch and pitch per foot.

DIGITAL PROTRACTOR/LEVEL ND-81
Full 360-degree measuring range with maximum resolution and accuracy of 0.1 degree. Simple 30 second calibration procedure using only the top flat edge of a table or desk. Alternate zero button to set zero starting point at any angle (commonly used for aeron, flap and elevator rigging). Display hold button to freeze reading. Readout stays upright even when protractor is upside down.

PRO 360 DIGITAL PROTRACTOR
The Pro 360 Digital Protractor is a revolutionary measuring tool that provides an immediate, digital reading of all angles in a 360º circle. The machined aluminum frame is a rigid, light weight, ultra-precise platform that allows the state-of-the-art sensor and its microprocessor circuit to provide unsurpassed accuracy throughout the Protractor’s 360º range. Typical used by aircraft builders, maintenance personnel and airport operators, P/N 12-20125....$279.00

PRO 3600 DIGITAL PROTRACTOR
The PRO-3600 is accurate to 0.01° and has an RS-232 compatible serial port for computer interface and SPC records keeping.

ATS-360 DIGITAL PROTRACTOR
It provides absolute measurement as well as relative measurement. 2.75" wide by 1.50" high LCD screen. Can convert between angles and slopes; Accurate to within .05 degrees

RIV-NUT PULLERS
The Riv-Nut Puller was designed for installation of steel and aluminum rivet nuts. High speed, push-pull action. Available in sizes 6/32, 8/32, and 10/32.

Rivet Nut Puller 6-32 ............... P/N 12-02886 .......$99.75
