RECOIL KITS
The Recoil System is the simple way to repair stripped or damaged threads. It provides stronger and more efficient threads which have great holding power. The system is quick and easy to use and is ideal for alloys and other light materials. The recoil insert, which is larger in diameter than the tapped hole, is compressed during installation then allowed to spring back, permanently anchoring into place. The Recoil System consists of Recoil stainless steel helically wound precision inserts, high quality HSS taps and installation tools.

*** Metric = Metric & Spark Plug (ISO)
**UNC = United Coarse Thread
* UNF - Unified Fine Thread

Recoil System consists of Recoil stainless steel helically wound precision inserts with black oxide finish. It opens acetylene tanks. Made of treated steel, this is a precision tool that shapes & cuts wire 5 different ways. Specifications: 4 Way all purpose wire 9" long made of hardened steel matte black permanent finish with bright clear markings. Makes it an attractive & easy to use product. Features long comfortable plastic grip handles. A one piece tool that shapes & cuts wire 5 different ways. Specifications: Wire cutter cutters crimps insulated terminals 4-40 6-32 8-32 10-24 10-32, Crimps non-insulated terminals 10-12 14-16 18-22, Strips wire 10-22 awg
