Model 2700-24............................P/N 12-02814.....................$1,052.00

ULTIMATE BOX & PAN BRAKE

The ultimate Box and Pan Brake has a unique 5-finger design. Incorporating moveable segmented bed fingers and apron fingers as well as upper radius fingers. Radius fingers allow forming aircraft and racecar panels using 3003 to 2024 T3 aluminum, .062 inch mild steel and .0375 inch stainless steel. Bend combinations easily that were extremely difficult if not impossible before. Features include wrenchless upper set back adjustments, 3-1/2" depth of box, 2" down leg, 1" front to rear adjustment and 1/4" reverse bend capabilities. A complete set of upper radius fingers. Wrenchless upper set back adjustments • 3-1/2 inch depth of box • 2 inch down leg • 1" inch front to rear adjustment • 1/4" inch reverse bend capabilities. Along with the box and pan brake, you will receive a complete set of optional upper radius fingers (your choice), bed fingers, apron angle fingers, and counterweight(s). The total width of the upper radius finger kit will be 48". You will receive the following fingers: qty 7 of 6" and one each of 3", 2", and 1" fingers totalling to 48". Upper radius finger kits (radius is measured inside of bend)
