- Remove stripped/rusted/corroded/stuck/one-side/Torx screws, nuts and bolts.
- Designed with VamPLIERS™ Technology.
- Target screws can be extracted using top jaw or side jaw.
- Ergonomic elastomer handles for unmatched comfort.
- RoHS Compliant for use in various industries.
- Made in Japan from high carbon stainless steel.
- P/N 12-04717..........
  - $39.95
- P/N 12-04718..........
  - $26.95

**VAMPLIERS PRO SCREW REMOVAL PLIERS**
- Remove stripped/rusted/corroded/stuck/one-side/Torx screws, nuts and bolts.
- Designed with VamPLIERS™ Technology.
- Target screws can be extracted using top jaw or side jaw.
- Ergonomic elastomer handles for unmatched comfort.
- Wire cutters hardened to HRC58±2 (Rockwell standard).
- RoHS Compliant for use in various industries.
- Made in Japan from high carbon stainless steel.
- P/N 12-04719..........
  - $39.95
- P/N 12-04720..........
  - $34.95
- P/N 12-04721..........
  - $29.95

**VAMPLIERS® SCREW REMOVAL PLIERS**
Remove stripped/rusted/corroded/stuck/one-side/Torx screws, nuts and bolts. Designed with patented VamPLIERS® Technology. Long Nose ideal for hard-to-reach screws up to 5.5mm in diameter and 2.2mm in height. Wire cutters hardened to HRC60±2 (Rockwell standard) to handle tough screws. Serrations in between grips used as wirepullers. Top teeth are inter-meshed for non-slip grip. Ergonomic elastomer handles for unmatched comfort. T-Shaped forged handles prevent the grip covers from twisting or slipping off. RoHS compliant for use in various industries. Made in Japan from high carbon stainless steel.

**VAMPLIERS® RECESSED SCREW EXTRACTOR WITH 2-IN-1 BIT SET**
High Quality Screw Extractor for recessed stripped screws. Easily removes stripped or damaged flathead, countersunk, and recessed screws. Saves time — No preparation required. No messy drilling required. High-Torque handle grip. 2-in-1 bit set for slightly-damaged and heavily-damaged screws.
- P/N 12-05062..........
  - $39.95

**VAMPLIERS® SLIP JOINT STRIPPED SCREW REMOVAL PLIERS**
These Slip Joint VamPLIERS have the signature concave shaped jaws with vertical and horizontal serrations designed inside of the jaws. This which gives the perfect bite around a stripped/rusted/corroded screw, nut or bolt for extraction. Compared to its predecessor, these jaws are wider to tackle bigger problem screws. Adding to its big bite is the “slip-joint” feature made with reversed body structures that allows the jaws to adjust and firmly take on bigger screws, nuts, and bolts.
- P/N 12-05063..........
  - $34.95

**VAMPLIERS® KIT**
VamPLIERS have a signature concave shaped jaws with vertical and horizontal serrations designed inside of the jaws. This which gives the perfect bite around a stripped/rusted/corroded screw, nut or bolt for extraction.

This kit features a pair of the VT001-8 VamPLIERS Pro Pliers, VT001-5 Mini Pliers, and the VT001-7SJ VamPLIERS.
- Slipjoint to cover all your rusted screw problems.
- P/N 12-04720..........
  - $133.75

**VAMPLIERS® TOOL POUCH**
Keep your VamPLIERS all in one place. This handy case has five individual pockets to hold your tools, and rolls up to save space in your toolbox.
- Note: Does not include VamPLIERS.
- P/N 12-04721.............
  - $9.95

**VAMPLIERS® SHEARS**
The VT-3949 Eshears are made of high carbon stainless steel with Molydenum and Vanadium blades, vacuum hardened and precision-ground for a long lasting edge. These sport modern ergonomic handles that are made of Nylon with 30% fiberglass and glass for both the right and left handed user.
- P/N 12-04997.............
  - $24.95

**VAMPLIERS® ELECTRICAL SHEARS / CRIMPER**
An electrician’s choice shear, the All-In-One Eshears are made of high carbon stainless steel with Molydenum and Vanadium micro-serrated blades, which are vacuum hardened for everlasting durability. They are also outfitted with sporty ergonomic handles made of Nylon and 30% fiberglass for comfort and designed for ambidextrous use.
- P/N 12-04996.............
  - $29.95

**VAMPLIERS® 6.25" KEVLAR CUTTING SHEARS**
High quality scissors for cutting Kevlar thread. These scissors are specially designed for cutting Kevlar material; Kevlar thread in particular. One blade is micro-serrated along the whole edge. The blades are made of high carbon alloy steel with Molydenum and Vanadium edge 60–62, cutting edge hardness HV1200. The handles are especially designed for firm grip and to ease repetitive cutting action.
- P/N 12-04994.............
  - $19.95

**VAMPLIERS® SUPER COMBO SCISSORS**
A high quality multi-use 4-in-1 innovative scissors for industrial and home use. The cutting edges are sharp and micro-serrations provide a firm grip during cutting.
- P/N 12-04995.............
  - $29.95

**VAMPLIERS® 8" KEVLAR CUTTING SHEARS**
These shears are ideal to cut materials made from aramid and para-aramid Fibers such as Kevlar, Dyneema, Vectran, and Technora in rope, ribbon, tape or fabric form. Its blades are made of high carbon alloy steel from Japan and are infused with Molydenum and Vanadium (HRC 60–62) through a proprietary process to achieve a level of hardness (HV1200) to cut strong materials.
- P/N 12-04993.............
  - $39.95
