KLEIN HOLE SAW KITS
Klein Hole Saws feature bimetal cobalt construction which allows for heavy-duty cutting; they can cut through studs in one pass. They also have multiple knock-out slots and holes for easy core removal. Carbide grit hole saws work well for cutting abrasive materials and offer a smooth cut with minimal tear-out. Klein’s Hole Saw Kit - Contains the most popular sizes for Arbors: 7/16” ( qty.2)
P/N 12-00969 ........... $58.75

KLEIN ELECTRICIAN TOOL SETS
Designed for beginner and experienced wipers, these tool sets range in size from a basic 14-piece assortment to the 41-piece comprehensive collection. Each set contains Klein premium products, such as wire stripper/cutters, screwdrivers, and pliers, plus protective eye wear and a pouch or tool bag for totting and storage. Each set offers a cost savings when compared to buying the tools separately. Tools in Electricians sets have standard handles. Tools in Journeyman sets have state of the art dual-material handles which provide a superior grip without sacrificing tool strength or durability.
14-Piece Electrician Tool Set .......... P/N 12-00819 ........... $264.95
18-Piece Journeyman Tool Set .......... P/N 12-00821 ........... $361.00
28-Piece Electrician Tool Set .......... P/N 12-00820 ........... $431.00
41-Piece Journeyman Tool Set .......... P/N 12-00822 ........... $809.00

KLEIN DIAGONAL CUTTING PLIERS WITH TAPERED NOSE

KLEIN LIGHTWEIGHT FLUSH CUTTERS
These shears wire up to 18 AWG producing a flat, flush cut. Shear cutting greatly reduces cutting effort and minimizes fly-off. Cushioned grips and steel return spring for increased comfort during repetitive cutting. Ultra slim profile increases access in confined areas.
Heat treated for increased durability. With 1/2” drive. P/N 12-03360 ........... $11.55

FLYING WIRE TENSIO METER
This tool is used for setting the tension on flying wires from 1/4” - 1/2”. Tension ranges from 200 lbs. to 2400 lbs. Can also be used for setting drag, anti-drag wire tension. Ideal for use on Stearmans, Wacos, and Pitts, etc. To use this tool you will need a torque wrench. With a 1/2” drive. P/N 12-12500 ........... $259.00

ATTENTION: TENSIO METER PRODUCTS MAY NOT BE CANCELLED OR RETURNED.

ROCKER SHAFT REMOVAL TOOL
Clever tool makes it easy to compress the valve springs to ease the removal of the rocker shaft. Just mount it into one of the valve cover screw holes and then give the knob a couple of turns to compress the valve spring. That will take the pressure off the rocker arm and allow you to easily remove the rocker shaft. Combine this with the Piston Pin Removal Tool and really save time on your next cylinder swap.
P/N 12-04807 ........... $54.85

PISTON PIN REMOVAL TOOL
This tool takes all the work and risk out of removing the piston pin. It works on Lycoming and Continental engines. Just slip it over the piston, turn the shaft and it pushes the pin out smoothly and cleanly. Vinyl coated tip prevents scratching and marring the pin or piston during removal. Will handle up to 5.5” pistons. P/N 12-04810 ........... $79.85

Greas E JOINT REJUVENATOR
Have you ever tried to push grease in through a grease fitting and couldn’t? The Grease Joint Rejuvenator opens clogged grease joints and fittings effortlessly in less than a minute! Open clogged grease fittings & joints. Cleans and replenishes old and dirty grease fittings. Loosens dried grease in joints. Cleans away stays in milling machines and lathes. Lubricates bearings on farm, lawn & construction equipment.
P/N 12-10103 ........... $41.50

COMPRESSION WHISTLE ALERT
No more burning your fingers and hands! Just Listen! Insert Whistle Alert™ into any 14mm spark plug hole and bump the engine until you hear the whistle. You are now on the compression stroke! Easily find Top Dead Center compression stoke. Turn engine over from inside the car and listen for the whistle. Made of steel and aluminum. Made and assembled in the USA.
Whistle Alert (Rigid) .................. P/N 12-01039 ........... $22.50
Whistle Alert (Flex) .................. P/N 12-01041 ........... $15.90

KNEARNEY SWAGER
This portable, hand-operated roll type swaging machine will swage MS type terminals onto galvanized and stainless steel cables from 1/16” diameter up to and including 3/16” diameter. Includes machine, a full set of roll dies, terminal gauges and feed guide adapters & instructions in a steel carrying case. Wt. 95 lbs. New manufacture. All replacement parts available. Special order.
P/N 12-01188 ........... $6,995.00

ENGINE CALIBRATION & SETUP KIT
The Engine Calibration & Setup Kit gives you innovative tools that help eliminate mistakes when setting up mechanical engine timing sequences, timing chains, timing belts, balance shafts and belts, distributor installations and general engine set-up.
Kit includes: Standard 6” (14mm) and Extended 10.75” (14mm) • TDC Indicators • Compression Gauge • Engine Calibration & Setup Kit
P/N 12-01040 ........... $127.75

HAWKEYE PRECISION FLEXIBLE BORESCOPES
Hawkeye Rigid Borescopes use patented endoGRINS® lens technology that provides a sharp view inside engine cylinders, wings, under seats, and other remote areas. Includes a mirror, compression tube to whistle conversion. P/N 12-00338 ........... $895.00

NOTE: ALL BORESCOPES ARE NON-RETURNABLE

ATS PUSH ROD SPRING COMPRESSOR
You know how hard it is to get at the springs on the push rod tubes... Now, you can compress them and remove the tube in under a minute. Just slip this tool onto the spring and crank the shaft counterclockwise (an air ratchet works great for this) to compress the spring, and then give everything a wiggle and out it comes. It’s a must-have tool when working on big bore Continentals. This tool will fit all production engines Lycoming, Continental, Franklin, and even most old radials.
P/N 12-04860 ........... $59.95

TACH DRIVE SEAL REMOVER
This straight forward tool will let you remove the tach seal in minutes time and time again.
P/N 12-04820 ........... $319.00
