APOLLO SPRAY SYSTEMS

APOLLO POWER-3 PAINT SPRAY SYSTEM

Apollo’s TrueHVLP™ Power Series gives more power, more performance and more value than ever before - Provides 15% more power from a 3-Stage Turbine. Spray all solvent-based materials such as: enamels, lacquers, stains, polyurethanes, most HVLP compatible waterborne coatings and more. Yields a high quality finish and suits smaller-scale professional and home-based operations. Comes equipped with the Handi-Hold® Spray Gun Docking Station, an Apollo innovation.

Specifications:
- Type: 3 Stage
- Pressure: 7.0 PSI (0.48 Bar)
- Volume: 115 CFM (3.25 cmm)
- Filtration: Dual Air Filtration
- Gun Type: HVLP
- Only, Single gun
- HP: 1.65 HP
- Current: 110VAC - 60HZ or 240VAC - 50HZ
- Amps: 11 or 5.5

P/N 09-04548 .......................... $2,95

TURBOPRO 1000 PAINT SPRAY SYSTEM

APOLLO SPRAYERS are the TrueHVLP Turbospray equipment is finding broad application across the world. The benefit of less overspray and recorded savings of 38% on coatings with no finish compromise is just one. Imagine having portability if necessary and no need for dryers or filters since the air supply is clean, dry and continuous always. Spraying waterborne coatings is a dream with Apollo TrueHVLP Turbospray Technology. Add to the list less energy consumption and even less booth filter maintenance if used in a spray booth.

P/N 09-04546 ....................... $2,155.50

APOLLO POWER-4 PAINT SPRAY SYSTEM

Apollo’s Power Series POWER-4 brings you 12% more power from a 4-stage Turbine. Sprays higher viscosity materials with excellent results, like, solvent-based materials including: enamels, stains, lacquers, polyurethanes, catalyzed finishes, conversion varnishes, and linear polyurethanes, as well as any waterborne coatings, latex (emulsion) paint (use with Floetrol® or similar flow additive) and other specialized materials like faux paints and gelcoat. Extremely versatile unit that provides the perfect finish to woodworkers, boat builders and restorers, automotive and airplane restorers and finishers, and any industry desiring super fine atomization with the widest range of materials. Optional Y-connector. Equipped with the Handi-Hold® Spray Gun Docking Station, an Apollo exclusive innovation.

Specifications:
- Type: 4 Stage
- Pressure: 9.0 PSI (.062 bar)
- Volume: 130 CFM (3.68 cmm)
- Filtration: Dual Air Filtration
- Gun Type: HVLP
- Only, Single gun
- HP: 1.85 HP
- Current: 110VAC - 60HZ or 240VAC - 50HZ
- Amps: 13 or 6
- Dimensions: 15” X 8.5” X 12” (38.1cm X 21.6cm X 30.48cm)

P/N 09-04551 ..................... $2.95

TURBOPRO 2000 PAINT SPRAY SYSTEM

APOLLO SPRAYERS the TrueHVLP Turbospray equipment is finding broad application across the world. The benefit of less overspray and recorded savings of 38% on coatings with no finish compromise is just one. Imagine having portability if necessary and no need for dryers or filters since the air supply is clean, dry and continuous always. Spraying waterborne coatings is a dream with Apollo TrueHVLP Turbospray Technology. Add to the list less energy consumption and even less booth filter maintenance if used in a spray booth.

Precision - Pressure Control System (PCSTM)
- controls motor speed, voltage and amperage adjusting automatically for altitude and barometric pressure assuring precise atomizing pressure worldwide.
- Power - Documented 80% transfer efficiency and 38% savings on coating when compared with compressed air systems.
- Throttle Back Control (TBC™) - Permits highest available flow pressure and increased motor longevity.
- LCD Message Center - Accurate Pressure Display – Motor Idle – Temperature – Hour Use Meter

Systems are supplied with our Award Winning PBC-GTO Series spray guns and our Handi-Hold Spray Gun Docking Station, an Apollo innovation. Store, hold or transport your spray gun in a vertical position with no risk of knocking or falling over. It’s ready to spray when you are.

APOLLO POWER-5 PAINT SPRAY SYSTEM

The Apollo POWER-5 combines exceptional Power Series features in a 5-Stage Turbine - with 22% more power! Spray solvent-based materials: enamels, stains, lacquers, polyurethanes, catalyzed finishes, conversion varnishes and linear polyurethanes. The POWER-5 also delivers superb results with waterborne coatings, latex (emulsion) paint (using Floetrol® or similar flow additive) and specialized materials like faux paints and gelcoat. The POWER-5 comes with the Handi-Hold® Spray Gun Docking Station to store, hold or transport your spray gun safely. The enhanced power and exclusive precision features of the new Precision Series POWER-5 put you in control of the most advanced TrueHVLP system for industries and applications demanding precision technology for the perfect finish. The POWER-5 will support multiple spray gun operations with a Y-connector. The POWER-5 turbine comes equipped with the Handi-Hold® Spray Gun Docking Station, an Apollo exclusive innovation. Store, hold or transport your spray gun in a vertical position with no risk of tipping or falling over. Ready to spray when you are.

Specifications:
- Type: 5 Stage
- Pressure: 9.5 PSI (.070 bar)
- Volume: 130 CFM (3.68 cmm)
- Filtration: Dual Air Filtration
- Gun Type: HVLP
- Only, Single gun
- HP: 1.85 HP
- Voltage: 110VAC - 60HZ or 240VAC - 50HZ
- Amps: 13 or 6

ATOMIZER GRAVITY FEED SPRAY GUN

A7500GT Atomizer®TM Gravity Feed Spray Gun. The Apollo 7500GT gravity feed spray gun is supplied with an 8 fl. oz (250cc) or 20 fl. oz (600cc) non-stick coated gravity cup and a 1 quart (1000cc) gravity cup, duckbill valve, deluxe carrying case, sample bottle of genuine Apollo Spray Gun Lube and a wrench (spanner). Gravity feed – three cup sizes Pressure feed – two cup sizes, and Production – 2 quart (2 litre) pot or larger.

P/N 09-04556 ...................... $315.00

ATOMIZER TOUCH UP SPRAY GUN

A7500MT Atomizer®TM Touch-Up Spray Gun. The Apollo 7500MT touch-up cup gun is supplied with an 8 fl. oz (250cc) mini-touch up assembly, duckbill valve, carrying case, spare parts kit, stainless steel material filter, sample bottle of genuine Apollo Spray Gun Lube and a wrench (spanner). Gravity feed – three cup sizes Pressure feed – two cup sizes, and Production – 2 quart (2 litre) pot or larger.

P/N 09-04555 ...................... $315.00

ATOMIZER QUICK RELEASE CUP GUN

A7500QT Atomizer®TM Quick-Release Cup Gun. The Apollo 7500QT turbine cup gun is supplied with a 1 quart (1 litre) non-stick coated cup assembly, duckbill valve, deluxe carrying case, spare parts kit, stainless steel material filter, sample bottle of genuine Apollo Spray Gun Lube and a wrench (spanner). Gravity feed – three cup sizes Pressure feed – two cup sizes, and Production – 2 quart (2 litre) pot or larger.
