TIRE BEAD BREAKERS

BEADBUSTER XB-455™

The BeadBuster XB-455 was designed to work on even the most difficult tires, which means it can make quick work of all general aviation light aircraft tires. An innovative new design requires no adjustment for different sized rims and no floor space required to set up. Precise, powerful control will ensure professional results without damaging rims. Change your own tires whenever, and wherever you want. Weight 3 lbs. Dimensions 6 x 6 x 1.75 in.

Features: • Designed in USA • made with care in Taiwan • Durable Steel Construction (AISI 1020 Cold Rolled) • Extra-strong Ram Foot is made from Hardened & Tempared 4130 Chrome-Moly Steel, with a Proof Load of >3,000 lbs • MIG Welded • Grd-5 & Grd-8 Hardware • Polyester Powder Coat Finish • Padded Clamp Arm (Will not scratch or dent rims).

Specifications: • Weight: 2.93 lbs • Size: 6" x 6" x 1-3/4" • Rim Lip Width: (clamp opening): 1.70" • Max Rim Lip Thickness: 0.63" • Rim Diameter: Any • Rim Width: Any • Rim Material: Any • Max Ram Extension (throw): 1.438" • P/N 12-04707 ......... $99.00

TIRE BEAD BREAKER

Once the tire & wheel have been removed from the airplane, the air is let out of the tire. The “Tire Bead Breaker” is used to break the bead or bond between tire and wheel. The “TBB” lets you safely break this bead almost without effort & with-out doing damage to the expensive cast wheels. One broken wheel half can easily cost more than the “Tire Bead Breaker”! The “Tire Bead Breaker” adjusts to fit tires as small as tailwheel tires and as large as those tires found on large, commercial cabinet planes. Can be used on both tube and tubeless tires.

P/N 12-10790 ........ $189.95

BOGERT LARGE BEAD BREAKER 13M-TBB2

Break tire beads safely, with little effort! Originally built to work on dragster tires, this Tire Breaker is capable of working on very small to very large tires. It is extremely adjustable! The Tire Bead Breaker is used to break the bond between the tire and wheel with little effort and without doing damage to the expensive cast wheels.

P/N 12-03577 ........ $227.95

TIRE BEAD BREAKER

The universal design of this tire bead breaker accommodates tube type and tubeless tires. It is easily adjustable for a wide range of tire sizes up to as large as tires for Twin Beech and Aero Commanders. Features all steel construction.

P/N 13-02360 ........ $258.00

VALVE CORE REMOVAL TOOL

Boxell Aerospace 968RB Safe Core Valve Tool. Aircraft Tire Valve Core Removal Tool. Used for rapid and safe tire deflation. Tool threads on valve stem. Releases and traps the valve core within the tool but exhausts the air through ports. Prevents Injury to Technician and FOD (stops the valve core from becoming a missile!) Air exhausts away from technician. Fits all standard aircraft tire schrader valves (equivalent to US Automotive valve stem). 100% Lifetime Warranty. Made In the USA.

P/N 12-03428 ........ $45.85

ACCUGAGE PROFESSIONAL TIRE GAUGE

This very accurate bourdon tube tire gauge offers precision pressure control and a rugged steel case with rubber shock-absorbing cover. It comes complete with a 12” long flexible braided hose, a bleed off button and stop hand. It is easy to read the pressure on this 2” gauge with 1 psi markings and 60 lb. range. Excellent for use on aircraft tires as well as cars and trucks.

P/N 13-00437 ........ $16.85

TIRE PRESSURE MONITOR SYSTEM

With the flip of a switch, this battery operated, hand held unit, displays the actual tire pressure and tire temperature. Small removable electronic valve sensors transmit pressure/temperature to the LCD monitor within 25-50 feet of the aircraft. These sensors replace the standard valve caps and stay on the tires during flight. Pressure range 0 to 80 PSI. Temperature range - 50 Centigrade to 145 Centigrade. The monitor also has an alarm setting for high or low pressure. The product is warranted for 12 months from the date of purchase. Only rated to 12,000 lbs. Tool FAA Approved. Installation on certificated aircraft requires FAA form 337.

300 PSI Range 0-60 ........................................... P/N 05-04367 ........ $345.00
PSI Range 0-140 ........................................... P/N 12-03345 ................ $279.00

TIRE DOG

The Wireless Tire Pressure/Temperature Monitoring System for Trucks, Tires, and Motor Homes. The tire pressure range is 0 to 180 psi. It will support 4 tires up to 22 tires. An adjustable swivel mounting bracket allows the monitor to be mounted on the dash or windshield. All items of the system are battery operated with a life span of 12 to 24 months depending on use. 

P/N 05-04849 ........................................... $279.00
Tire Dog Sensor ........................................... P/N 05-04850 ........ $50.00
Tire Dog Wireless Relay .............................. P/N 05-04851 ........ $75.00

ANALOG TIRE GAUGE

Check out the tool box of your local mechanic and you're likely to see a dial-type tire gauge because they're very accurate and easy to read. The TirePro gauge has a 12" flexible hose that makes even hard-to-access valves less of a task. Readings are held until released, and a built-in bleeder valve lets you dial down to the desired pressure. Readings are in psi and kPa, and the dial is protected by a rubber boot.

P/N 12-03742 ........ $19.95

DIGITAL TIRE GAUGE
