# BRIGHTLINE FLIGHT BAGS

## BRIGHTLINE FLEX B2 COMPUTE BAG
The B2 Compute starts with the 2” Center Section, which is designed to hold 13” laptops. Add a Front and Rear End Cap and you have an extraordinary laptop bag. The Front End Cap allows you to store items such as power cords, backup drives, flash drives, digital cameras, smart phones, tools, keys, etc. Meanwhile, the Rear End Cap allows you to store your manilla folders and documents. This can be used daily or you can attach the 2” Center Section to any other FLEX module. For example, you can zip it in between the Front Bag and the Rear Bag when traveling. This bag also includes the Portfolio Handle which can be attached to the Front End Cap. This will only be used when you decide to remove the Center Section Two and zip the Front End Cap and the Rear End Cap together to make a “Portfolio Bag”.

## BRIGHTLINE FLEX B4 SWIFT FLIGHT BAG
The B4 SWIFT makes a perfect VFR Flight Bag with room for one or two headsets, an iPad, a handheld radio, and organization for all the little tech accessories. Remove the 4-inch Center Section and end up with the B-zero SLIM. Two different bags for the price of one. The B4 SWIFT is often recommended as the ideal VFR flight bag. It’s designed to hold one or two full-sized headsets plus a handful of charts, and/or an iPad, plus all the small stuff you’ll want along for the ride. It also serves as an unbeatable carry-on personal bag when traveling on commercial flights, or just as a terrific daily bag for a wide variety of personal and professional uses.

## BRIGHTLINE FLEX B7 PILOT FLIGHT BAG
The B7 FLIGHT is the FLEX version of our award-winning original Pilot Flight Bag updated by now being configured with End Caps and Center Sections to allow even more flexibility. The B7 FLIGHT is perhaps the most useful flight bag ever designed. It’s a fact that some days you need more gear than others. The B7 lets you carry a full set of flight gear for cross country (and basic IFR flight). And then it lets you downsize to a smaller bag for those days when you’re just going to take a quick VFR flight.

## BRIGHTLINE FLEX PACK CAP REAR
This specialized Rear End Cap turns any BrightLine Bag into a backpack (with limitations). This End Cap has backpack straps built in, but doesn’t look like a backpack when the straps are not in use. It’s easy to deploy the backpack straps and it looks like a conventional BrightLine Bag. It is 13.5” x 10.5” x 1.5”. The Front End Cap is designed to hold your cell phone, wallet, Multi-Tool, cords, cables, etc. It is not designed to be used alone as the zippers are exposed and could be damaged. Works well with a Rear End Cap.
