SUN SHIELDS – CANOPY COVERS

KENNON SUPER SUN SHIELDS

The most durable sun shield on the market has a clear polyester coating to protect the plexiglax windows. Heat can permanently damage the interior finish if avionics in your aircraft. The secret is a material with two surfaces of aluminum separated by trapped air. This combination reflects 97% of radiant heat, an insulation value of R-9 equivalent to two inches of fiberglass. Kennon Extra Firm shields fit snugly, and maintain their shape for a tight fit. They install in no time, and roll up for storage in compact, water-repellent bags. Weight is 1lb. Available for most aircraft, specify year, make and model. For custom shields, specify exact size of windshield & windows. Also available for cars. Fabric edging insures snug fit & durability.

General Aviation........................................ P/N 7872........ $207.95
Business Class................................................. P/N 13-01071........ $248.95

PIPER SUNVISOR CATCHES

Many Piper aircraft have the same problem. The sun visor catches lose to stability, because the UV effect allows the plastic to become porous. These Piper Sunvisor Catches are made from a blended poly- plastic with a UV additive that will prevent UV corrosion. A set contains pieces with the required plastic rivets. They are available in white and black (used in Piper PA-38 Tomahawk). The set for the Piper Tomahawk contains two extra rivets.

White........ P/N 13-04187........ $33.85
Black........ P/N 13-04188........ $33.85

KENNON COWL PLUGS

Kennon cowl plugs are constructed from red Aqualon over 2 inch foam and feature a binding around the outer edge of each plug so there is a tight seal which fits snugly in the cowl. This lip prevents the plugs from slipping inside the opening. A safety strap goes around the prop so if by chance you forget to remove the plugs, the prop will remove them for you. These cowl plugs install easily and comes with their own storage bag. Specify aircraft make, model & year when ordering. Include aircraft registration number to be printed on plugs at no extra charge.

Single engine plugs........ P/N 13-00621....... $150.00
Twin engines plugs........... P/N 13-00622........ $249.95

CUSTOM FIT COWL PLUGS

Cowl plugs are tailored to fit popular Cessna single engine aircraft. High visibility yellow closed cell foam will not retain moisture. Printed on one side is “Remove Before Starting Engine”, and the other is blank for the N number. They are joined by a nylon strap with a fluorescent orange “Remove Before Flight” flag.

C-150 (2 Hole Only)..... P/N 13-02620........ $35.95
C-172 (1955+)........... P/N 13-10025........ $34.95
C-182 (1972.5 - 1989)..... P/N 13-10030........ $36.95

Universal kit w/square inlets (Sq blocks you cut to fit) P/N 13-02645........ $38.80/pr

KENNON WIND SPOILERS

Kennon Wind Spilers are a strip of soft fiber filled tubes that attach to the wing to slow airflow over the top and to prevent lift. An airplane was built to fly, given a strong wind, the plane will fly without you and no tie down will restrain a flying airplane for long. During the stormy winter of 1998, over 200 airplanes were picked up and destroyed by strong winds. Kennon Wind Spilers could have saved many of these aircraft. The wind spoilers cover the leading edge of the wings but not the tips, and Kennon’s deluxe canopy cover is constructed with polyester fiber. Wind is an engineer material specifically designed for constant outdoor use. It is extremely UV resistant and extremely resistant to fading and color loss. This fabric is breathable, abrasion resistant and extremely resistant to fading and color loss. Static charged acrylic windows attract dust and dirt scratches. Kennon’s new Anti-Grit lining helps reduce static and further helps prevent scratching. See www.aircraftspruce.com for Kennon Color Chart.

LOW WING WITH 2 SIDE WINDOWS- This is for a 4 seat plane Deluxe........ P/N 13-04451-D-D ............. $650.00

LOW WING WITH 3 SIDE WINDOWS – Earlier than 1971 Piper Cherokee VI, Piper, PA28 181, 200, 235 incl. Arrow, Archer & Warrior, Dakota, Aerospilalite, Trinidad, Tobbago, Piper Commanche (Some but not all...ASK), Aztec, Apache, Cessna 310 (exception to 2 window rule) Deluxe........ P/N 13-14148-D-D............... $650.00

LOW WING WITH 4 SIDE WINDOWS – Piper Cherokee VI, Lance, Saragota, Malibu, Seneca, Aerosports, Beech Baron 58, Beech 33, 36, Beech King, Air (Cockpit), Lear 2500, 3500 (Cockpit) Deluxe........ P/N 13-14149-D-D.............. $650.00

LOW WING WITH 4 TO 5 SIDE WINDOWS – Piper Navajo Cheiflon, Cheyenne, Cessna 340, 402, 414, 425, 441, Citation, Beech Duke Deluxe........ P/N 13-14150-D-D.............. $800.00

LANCAIR & ZENAIR CANOPY COVERS

These custom designed covers for the Lancair 235/320 & the Zenair Zodiac canopy are made of acrylic Sunbrella fabric and are available in blue, grey, or white. The 100% acrylic fabric won’t shrink, fade, or rot. Nylon webbed straps assure secure fit while snap together buckles permit fast adjustment, fastening, and release. Side adjustments provide tight fit. These covers will protect your avionics and interior from sunlight and heat damage.

Lancair Blue Canopy Cover................ P/N 13-14110 ........ $650.00
Kennon Zenair Blue Canopy Cover........ P/N 13-14140 .......... $650.00

BRUCES INSULATED HANGAR BLANKET

Protect your airplane’s engine inside a cold weather hangar with reasonably priced Insulated Hangar Blankets. Excellent protection against the cold when used indoors with an engine warming heat source. Color red.

High Wing, 2 Place P/N 13-21100........ $245.00
High Wing, 4 Place P/N 13-21103........ $290.00
Low Wing, 2 Place P/N 13-21102........ $245.00
Low Wing, 4 Place P/N 13-21104........ $290.00
