3M™ AC-350 TYPE A & B AEROSPACE SEALANTS

3M™ Aerospace Sealant AC-350 is a family of intermediate density, fast-curing, polysulfide fuel tank sealants that provides outstanding resistance to aviation fuels and petroleum chemicals. The Class A, B and C versions maintain bond strength on many metal, composite and coated substrates and help meet a range of applications for integral fuel tank and fuselage sealing.

The 3M™ Aerospace Sealant AC-350 family of polysulfide sealants provide a number of advantages and benefits compared to traditional sealants. With three classes, they meet a wide range of manufacturing requirements of specifications AMS-S-8802 formerly MIL-S-8802, CNAV021, Lockheed, Gulfstream, Hughes Aircraft, Fairchild SPS.

When Class A version is mixed, it provides a smooth pourable liquid that spreads evenly with a brush or roller to cover large areas quickly. It is a thixotropic, non-sag consistency. It possesses excellent adhesion to aluminum, magnesium, titanium, steel and numerous other materials.

3M™ AC-251 B-2 3.5 oz - CANOPY / WINDSHIELD SEALANT

A two-part, quick curing, polysulfide based canopy and windshield sealant. Formulated for sealing acrylic, glass, and polycarbonate aircraft canopies and windshields. Contain no solvent and do not craze. Excellent adhesion and resistance to UV and weather exposure. 3.5oz Fill Premixed Syringe. A thixotropic, non-sag consistency. P/N 09-04008 $29.80

PROSEAL PR-1776M CLASS B LOW WEIGHT FUEL TANK SEALANT

A low density, high temperature aircraft integral fuel tank sealant. Service temperature range from -65°F (-54°C) to 250°F (121°C), with very limited excursions up to 360°F (182°C). Designed for fillet sealing of fuel tank edges and other aircraft fuel system sealing applications. Cured sealant maintains excellent elastomeric properties after prolonged exposure to aircraft fuels both jet fuel and aviation gas, and will resist limited contact to diphosphate ester based hydraulic fluids. Two-part, manganese oxide cured polysulfide. Suitable for application by extrusion gun or spatula. It cures at room temperature to form a resilient sealant. Shelf Life: 9 months P/N 09-02003 $359.00

CHEMSEAL TANK SEALANT C3204

CS3204 is a fuel resistant sealant for use on integral fuel tanks and pressurized cabins as well as other areas subject to contact with aircraft fuels, lubricants, oils, water and/or weathering. Meets requirements of specification AMS-S-8802 formerly MIL-S-8802, CNAV021, Lockheed, Gulfstream, Hughes Aircraft, Fairchild SPS.

6-1 & 6-2, 2-2 oz. sealant (2 hour) P/N 09-38500 $19.85 6-1 & 2-1/2 oz. sealant (2 hour) P/N 09-38510 $22.50 6-1 & 6 oz (1/2 hour) P/N 09-04612 $22.65

PROSEAL HAND-DISPENSING GUN

These hand-operated dispensing guns are ideal for applying Pro-Seal type sealants in small quantities normally used by the home builder. Available in two sizes for the two sizes of Pro-Seal offered above.

6-1/2 oz. Dispensing Gun P/N 09-38520 $124.50/ea. 6 oz. Dispensing Gun P/N 09-38530 $129.75/ea.

PRO SEAL AIR POWERED TS950 2.5 OUNCE GUN KIT

The Air Powered Sealant kit includes: Techcon TS950 Sealant Gun with Pistol Grip Handle 2.5 oz. Versatile, pneumatic 2.5 ounce sealant applicator system with pistol grip handle. Techcon Extended Wiper Plunger (1 piece per kit) Techcon 2.5 Oz. Standard Density Disposable Cartridge (1 piece per kit) Opaque White

Techcon 6 oz. Standard Density Disposable Cartridge P/N 09-00759 $0.65

TRIGGER TYPE SEALANT GUNS

This air-powered, trigger controlled sealant gun will spread sealant smoothly, uniformly, and exactly where you want it. Includes body, 10 ft. hose, and 2 1/2 oz. zinc plated corrosion resistant retainer to prevent cartridge split. Hose has Hanson-style air fitting.

Gun with 2.5 oz. Retainer P/N 12-02921 $112.85
Gun with 6 oz. Retainer P/N 12-02922 $118.75

PISTOL GRIP SEALANT GUNS

Use this pneumatic pistol grip sealant gun to apply smooth, uniform material exactly where you want it. Comes with body, 10 ft. hose, and 2 1/2 oz. zinc-plated corrosion resistant retainer. Hanson-style air fitting on hose.

Gun with 2.5 oz. Retainer P/N 12-02921 $136.80
Gun with 6 oz. Retainer P/N 12-02922 $136.80

The application life of each sealant is specified by the dash number in the part number. Examples: AC-236 B-2 6 oz. is 2 hour life. AC-250 B-1/6 2 oz. is 1/6 hour life.
