TRIG AVIONICS

TRIG TY91/TY92 DUAL CONTROL TRANSCEIVERS

The TY91/TY92 is an innovative two-part radio with a remote mounted radio and a panel mounted controller. A crisp clear display and simple user interface. The ’Dual Watch’ feature allows the monitoring of two frequencies at the same time. There are 9 pre-set channel memories which are all easily selectible. The radio can integrate with popular GPS units; this allows the automatic display of en-route radio frequencies (uses industry standard SL40 protocol). Also has a built-in two place intercom with microphone input, saving further space and weight. • EASA ETSO and FAA TSO certification • Two controller option for tandem cockpits • Unbeatable value and quality – designed and manufactured in the U.K. • Two year worldwide warranty.

TRIG TY97 SLIMLINE VHF

Trig’s TY97 aviation radio sets a new standard in high power 25 kHz and 8.33 kHz radio design. Combining great and performance each radio is housed within a superbly engineered unit, slim-line and light. At only 33mm high (1.3”) the radio saves valuable stack space, but retains innovative and practical features. The TY97 is a 16 Watt certified radio, designed for high performance aircraft with a 28 volt power supply. With enhanced performance the TY97 ensures successful reception and transmission over long distance or from high altitudes.

TY97 .......................................................... P/N 11-14688 ........................................................... $2,775.00
TY97A 25 kHz Installation Kit ................................ P/N 11-15377 ........................................................... $2,443.50
TY97A 25 kHz Installation Kit ................................ P/N 11-15378 ........................................................... $139.75

TRIG TY91 VHF RADIO SYSTEM

The majority of GA users including light sport, ultra-light, glider and balloon pilots will fit the Trig TY91 aviation radio, this lower powered 6 watt model is ideal for the majority of applications. Features: • Can be set at 25 kHz and 8.33 kHz • Receiver - Class C, Class E • Transmitter - Class 4, Class 6 • 6 Watt power output • Compact and light weight • Takes up minimal space and weight • Dual watch and two place intercom • Operation is simple, rapid frequency selection • Nine programmable memories • Can be battery operated • Full certified • Compliments Trig’s TY92 and TT22 • 12 volt supply

TY91 .......................................................... P/N 11-10721 ........................................................... $1,291.00
TY91/TY92 Remote Installation Kit ......................... P/N 11-16858 ........................................................... $50.50

TRIG TY96 SLIMLINE VHF RADIO

The TY96 aviation radio is designed to provide fast switching between 8.33 kHz and 25 kHz. Its slimline and lightweight design—at only 33mm in height—saves valuable stack space while retaining innovative and practical features. The TY96 is a certified 10 watt radio designed for general aviation and light sport applications and is ideally suited to the needs of experienced and novice pilots alike.

TY96 .......................................................... P/N 11-14848 ........................................................... $2,775.00
TY96A 25 kHz .................................................. P/N 11-15376 ........................................................... $1,693.00
TY96/TY97 Installation Kit .................................... P/N 11-15378 ........................................................... $139.75

TRIG TT22 MODE S TRANSPONDER

Trig makes the world’s smallest and lightest Mode S certified GA transponders. The TT22 Trig compact transponder can fit into the tightest panel space. This allows general aviation, glider and pilot to fit other instrumentation or displays that otherwise might not have been possible. The TT22 is a class 2 transponder and our most popular compact transponder model. Compact size • takes minimal panel space, fits in a standard instrument hole. Integrated altitude encoder. Certified for IFR / VFR flight. Certified class 2 transponder 130 watts nominal output. Low weight – 440g (0.8 lbs). Features: • Low Weight • Minimal Panel Space • Low Power Consumption • 130 Watts Nominal Output • Integrated Altitude Encoder • Simple Installation • Easy to Use Rotary Knobs • Support for ADS-B Out. TT21 Mode S Transponder Complete Kit ....................................... P/N 11-07999 ........................................................... $1,866.00
TT21 Remote Unit ........................................... P/N 11-16850 ........................................................... $2,678.00
Mounting Tray ................................................ P/N 11-09758 ........................................................... $30.50
RAM Cradle Uni Thick Tablets ............................. P/N 11-09768 ........................................................... $22.99
TC20 Control .................................................. P/N 11-09762 ........................................................... $490.00
TT21 Remote Unit ........................................... P/N 11-16847 ........................................................... $1,520.00

TRIG TT21 MODE S TRANSPONDER

Trig's TT21 transponder is the perfect retrofit for the popular Bendix King KT76A and KT78A transponders. The TT21 is a certified Class 1 transponder which will 'plug and play' straight into the existing Bendix King tray. This significantly reduces both installation time and cost. It provides pilots with class leading Mode S technology that is also 1090ES ADS-B Out capable too (ADS-B functionality requires a Trig tracy). Retrofit – ‘plug and play’ installation for KT76A and KT78A transponders. Certified Mode S and 1090ES ADS-B Out capable. Certified for IFR / VFR flight. Lowest power consumption in class. 240 watts nominal output. Great functionality and performance features: • Europe- wide Mode S • Low Power Consumption • No Cavity Tube • 940 Watts Nominal Output • Plug and Play Installation • Backlit LCD Display • Easy to Use Rotary Knobs • Timer/Stopwatch Function • Altitude Monitor • Certified 1090ES ADS-B out

Transponder .................................................. P/N 11-07997 ........................................................... $2,296.00
Transponder with 4 ft Harness ............................ P/N 11-13304 ........................................................... $2,533.00
Transponder with Custom Harness ....................... P/N 11-13305 ........................................................... $2,383.00
Transponder Replacement KT-76X ....................... P/N 11-07998 ........................................................... $2,222.00
Installation Kit .............................................. P/N 11-09754 ........................................................... $120.00

TRIG TMA44 STANDARD AUDIO PANEL

The TMA44 suits aircraft owners looking for a great value panel that covers general aviation requirements.

This panel supports 2-4 seats with independent control of crew and passenger audio. The TMA44 enables simple control of all your navigation, communication and entertainment choices — benefiting from Trig’s ‘Better by Design’ philosophy. The result, a logical and high quality interface that’s easier to use. The TMA44 has features pilots need to operate in both IFR and VFR flight, whilst providing mono entertainment options too. .......................................................... P/N 11-16067 ........................................................... $1,140.00

TRIG TMA45 STANDARD AUDIO PANEL

The TMA45 is our fully featured panel, perfect for aircraft owners who don’t want to compromise. If you are looking for great quality audio, stereoscopic music and phone support via Bluetooth then this panel provides it all. The control of your navigation, communication and entertainment will be simplified as the TMA45 benefits from Trig’s ‘Better by Design’ philosophy. The result — a logical and high quality interface that’s easier to use, with features pilots and passengers will really appreciate.

Transponder .................................................. P/N 11-16011 ........................................................... $1,640.00
