PMA6000B Audio Panel w/4-place mono intercom available with or without marker beacon receiver. The PMA6000B holds both FAA TSO as well as EASA ETSO and was designed to be made easier to install because of a single 44-pin Sub-D connector. PS Engineering has revolutionized audio control in general aviation airplanes. At that time, the original PMA6000 took the audio panel from a collection of switches added as an afterthought, to a multi-talented inter-system focal point for cockpit audio.

- **Capabilities**: Built-in 4 place mono intercom PS Engineering’s “Set it and Forget-it” manual VOX. Option built-in marker beacon receiver. Split mode for dual audio capability. 2 - Com Capability. 3 - Intercom isolation modes - Pilot Isolate, All, and Crew. 2 - Music inputs with SoftMute™. 2 - Unswitched inputs. 6 - Switched inputs. A patented “swap” function allows selection of Com 1 or Com 2 from remote push-button. Fail-safe feature automatically hard-wires the pilot to Com 1 in the case of an outage. Uses a single 44-pin connector making installation easier.

**PAC 24 AUDIO PANEL/INTERCOM**

Designed as a upgrade/replacement for the popular KMA24 –71. Many of the enhancements include: a powerful full headset audio amplifier, audio performance InteliVox® intercom, dual audio capability in a single box, full duplex mode for wireless operations, and expansion capability with stereo IFE input. Can accommodate 5 transceivers. A monaural system, the PAC24 includes a music input, SoftMute™ silences music during radio traffic, but allows music other times. Incorporates a split mode that will allow a single audio panel to separate two pilots on different transceivers. When combined with InteliFax® to expand the dual PAC24 system. The audio amplifier is capable of providing 120 milliwatts (mW) into general aviation headphones. Horizontal Mounting. Vertical Mounting. PS Engineering cellphone cable P/N 11-05159 $28.95

**PS ENGINEERING ACCESSORIES**

- **PS Engineering cellphone cable** P/N 11-04376 $28.95
- **PS Engineering music cable** P/N 11-04377 $28.95
- **Digital Recorder Aural Warning System w/4 unswitched inputs** P/N 11-05136 $699.00
- **FM Radio Adapter (allows interfacing of non-standard aviation radios)** P/N 11-05159 $379.00
- **4 Channel Summing Amplifier** P/N 11-05160 $195.00

**PS ENGINEERING PMA360EX AUDIO PANEL**

PS Engineering has taken some of the technology from their enhanced PMA450 and built a package that better suits the Homebuilder’s needs for avionics.

The user interface eliminates the need to open up the Pilot’s Guide. Bluetooth®, soft-key buttons, and a graphics display. IntelliPax® True Dimensional Sound. 4 - Place hi-fi stereo InteliVox® Intercom with SoftMute™, Bluetooth® enabled. 3 - music mute modes. Cellular telephone input with “DuTel™”. Digital aircraft radio recorder (IRC®). USB charging port. Split mode for dual audio panel capability. Selectable music distribution for pilot, copilot and passengers. Selectable intercom mode with special “Alternate Intercom Mode,” 2-year Pro-Support Warranty. P/N 11-13798 $1,345.00

---

**PS ENGINEERING PAR200A AUDIO PANEL WITH REMOTE VHF RECEIVER**

FAA TSO’d for Certified Aircraft. 4 - place stereo InteliVox® intercom, a 10 Watt Speaker Amplifier, and accesses a 2280 channel VHF aviation radio. (Selectabe 8.33KHZ) Bluetooth capable. Pairing of phones or Bluetooth® enable audio devices is easily achieved for wireless entertainment. Features automatic radio squelch which assures that the radio trip level is always optimally set.

- **Two different inputs and two types music distribution. The standard configuration allows music 1 (or Bluetooth® to go to the crew while the passengers hear music 2). The other selection (for Bluetooth®) to go to all headsets. • Monitor Mode allows the pilot to hear the Active and Standby frequencies at the same time. • Up to 5 discrete radio frequencies can be stored in non-volatile memory for quick dial up. • Featuring fully independend power supplies so you can power up the radio or audio panel individually. • The PAR200A uses the same tray and connector as the GMA240, GMA340, PMA800 series. However, there is additional wiring that is required to interface the Com Radio to the audio panel.** P/N 11-13038 $2,955.00

**PMA 7000B/7000H/7000M AUDIO PANEL**

Note: Plug & Play slide-in replacement for the PMA7000M, the PMA7000H, and the KMA28. Pin compatible with the KMA 24. Nice for upgrading an existing PMA 24 audio panel. KMA 24 pin compatible. None of the existing wires going to the KMA 24 have to be disturb. Renown 6-place InteliVox® automatic Voice Operated Relay (VOX) Intercom system. Provides 3-com capability with the option to easily convert Com 1 to a full duplex, cellular telephone interface. Also has the pioneered “Split Mode”. Allows the pilot to be on Com 1 while the copilot is on Com 2. Also expandable to accommodate up to 12 places (10 passengers) with the addition of the 1158 Intellipax. Has four unswitched and un-muted inputs: 1.3 inches Width: 6.25 inches Depth: 6.8 inches Height: 1.5 inches Power Requirements: 12 to 24 VDC Warranty: 2 Years. Unit is TSO'D. PMA 7000B Audio Panel……………P/N 11-11801 $2,395.00

PMA 7000M Bluetooth/Marker Beacon P/N 11-13663 $1,395.00

6 Place expansion for 7000……………P/N 11-02544 $399.95
