

# TOW BARS

## BOGERT TOW BARS (BOGI-BARS)

Light enough to stow. Built from a combination of steel for maximum durability. Comfort grips on the handle and spreader bar chip resistant red bar will look great for years. Operation: extend the handle easily with high shear wick release pin. Apply forward pressure on the spreader bar to open the wishbone jays. Line up the Bogi-Bar attachment at the tow points or axle depending on model. Release the tension on the spreader bar and you are locked on! The tow bar will not slip off the plane. Reverse for removal.

## BOGI BAR EXTENDED T-HANDLE

Includes new grips and is 7" longer than the standard Bogi Bar T-Handle. The extra length can be quite beneficial for aircraft with extra-long noses like the Cessna 182 S (1996 and up) and T (2001 and up) models. Tall customers will find this T-Handle easier on the back since it lowers the overall angle of the tow. The Extended T-Handle works with any of the standard Bogi-Bars and will increase the overall length to about 55". Model 4-TXL.....P/N 13-11199 ..... **\$45.50**

## BRACKET TOW BARS

### MODEL TR-6

Excellent for towing aircraft such as the T-6, P-51, Stearman, Staggerwing, Beech, or any aircraft with 3/4" or larger eye bolts. Length: 12' Spread: 12 ft. Weight: 62 lbs.  
Ring Hitch .....P/N 13-10131 ..... **\$1,049.00**  
Ball Hitch .....P/N 13-10130 ..... **\$939.00**

### BRACKETT TH-6 TOWBARS

The TH-6 is a light-weight universal towbar designed primarily for hand towing. The TH-6 eliminates the mad hunt for the proper towbar when moving a hangar full of singles and light twins. This towbar also has a good handle for pulling and a ring, ball or clevis hitch for occasional light towing. NOTE: The piper manual states that the tow pins are for hand towing.

For powered towing we suggest adapter set P/N 13-15488.

Ring Hitch .....P/N 13-18547 ..... **\$436.00**  
Ball Hitch .....P/N 13-18548 ..... **\$436.00**
