

THROTTLE AND CHOKE CABLES

NON-LOCKING THROTTLE AND CHOKE CABLES

Non-Locking Choke Controls for Dual Carburetor Rotax 912/914 Series Engines Allows a neat, clean installation without a clunky splitter box These controls do not feature a locking mechanism, however they have an internal elastomer seal to dampen vibration and provide a small amount of resistance. If your choke installation features a return spring, this control will return to the closed position

when released. Stroke 3.5" min. These controls are not for use on certified aircraft, or for use for flight controls or flight control trim tabs.

Model No.	Description	Part No.	Price
101D048	Control Dual 4ft W/O Knob	05-11212	\$174.95
101D048-RB	Control Dual 4ft Round Black Knob	05-11213	\$169.80

THROTTLE AND CHOKE CABLES - LOCKING

Turn-to-Lock Choke Controls for Dual Carburetor 912/914 Series Rotax Engines Allows a neat, clean installation without a clunky splitter box These controls feature a turn-to-lock mechanism that requires a

quarter turn of the knob to lock or unlock the control at any position. For a non-locking control go to Non-Locking Choke Controls. Stroke 3.5" Min.

Model No.	Description	Part No.	Price
1014d048	Control Turn-To-Lock Dual 4ft	05-11249	\$180.99
1014d048-B	Control Turn-To-Lock Dual 4ft Ball Knob	05-11250	\$186.75

1014d096	Control Turn-To-Lock Dual 8ft Wo Knob	05-11265	\$173.90
1014d096-B	Control Turn-To-Lock Dual 8ft Ball Knob	05-11266	\$178.95
1014d096-F	Control Turn-To-Lock Dual 8ft Fluted Knob	05-11267	\$178.95
1014d096-FL	Control Turn-To-Lock Dual 8ft Fluted Knob	05-11268	\$184.75
1014d096-P	Control Turn-To-Lock Dual 8ft 4-Prong Knob	05-11269	\$178.95
1014d096-PL	Control Turn-To-Lock Dual 8ft 4-Prong Knob	05-11270	\$184.75
1014d096-T	Control Turn-To-Lock Dual 8ft T-Handle Knob	05-11271	\$178.95
1014d096-TL	Control Turn-To-Lock Dual 8ft T-Handle Knob	05-11272	\$184.75

VERNIER ASSIST THROTTLE CONTROL

Vernier-Assist™ Throttle Controls for Dual Carburetor 912/914 Series Rotax Engines Innovative

design allows a neat, clean installation without a clunky splitter box McFarlane invents a new type of vernier engine control This brand new type of control has all the fine adjustment benefits of an old style push-button release vernier control, with the simplicity, responsiveness and jam-proof safety of a friction lock control.

- Light weight and compact behind the panel
- Safer - No vernier threads to jam!
- US Patent No. 8,485,057

These light weight controls use a patent pending drive mechanism. The new roller action vernier provides smooth, jam-proof coarse and fine adjustment without a release button. Coarse adjustments are made by pushing the knob inwards or pulling the knob outwards. Fine adjustments are made by rotating the knob clockwise or counterclockwise.
