

STROBES – MAP LIGHTS – LED LIGHTS

OPLITE FAA-PMA SINGLE COLOR 4 LED MAPLIGHTS

Easily installed, dimmable, unobtrusive and efficient, the LED Maplight 4 series consists of four LEDs of the same color that illuminate simultaneously. The LED Maplight 4 series is compatible with all

dimming systems. Each LED Maplight 4 is manufactured and tested in accordance with FAA-PMA-approved protocols for quality assurance and customer satisfaction. Precision CNC Machined • Mil-Spec Anodized • 20,000 Hours LED Life.

| Color | Volts | Part No. | Price | Color | Volts | Part No. | Price |
|-------|-------|----------|----------|-------|-------|----------|----------|
| Red | 12V | 11-13846 | \$169.95 | Green | 24V | 11-13850 | \$169.95 |
| Red | 24V | 11-13849 | \$169.95 | White | 12V | 11-13848 | \$169.95 |
| Green | 12V | 11-13847 | \$169.95 | White | 24V | 11-13851 | \$169.95 |

OPLITE FAA-PMA SINGLE COLOR 6 LED MAPLIGHTS

The Maplight 6 series is available either with all six LEDs of your color choice operating simultaneously, or three white LEDs and three LEDs of your color choice operating independently of the other color.

The Maplight 6 series is compatible with all dimming systems. Each LED Maplight 6 is manufactured and tested in accordance with FAA-PMA-approved protocols for quality assurance and customer satisfaction.

| Color | Volts | Part No. | Price | Color | Volts | Part No. | Price |
|-------|-------|----------|----------|-------|-------|----------|----------|
| Red | 12V | 11-13852 | \$175.00 | Blue | 12V | 11-13854 | \$175.00 |
| Red | 24V | 11-13856 | \$175.00 | Blue | 24V | 11-13858 | \$175.00 |
| White | 12V | 11-13853 | \$175.00 | Green | 12V | 11-13855 | \$175.00 |
| White | 24V | 11-13857 | \$175.00 | Green | 24V | 11-13859 | \$175.00 |

OPLITE FAA-PMA DUAL COLOR 6 LED MAPLIGHTS

The Maplight 6 series is available either with all six LEDs of your color choice operating simultaneously, or three white LEDs and three LEDs of your color choice operating independently of the other color.

The Maplight 6 series is compatible with all dimming systems. Each LED Maplight 6 is manufactured and tested in accordance with FAA-PMA-approved protocols for quality assurance and customer satisfaction.

| Color | Voltage | Part No. | Price |
|-------------|---------|----------|----------|
| White/Red | 12V | 11-13860 | \$183.50 |

TASKLIGHT 600 COLOR LED COCKPIT LIGHTS

The TaskLight 600 series is available either with all 6 LEDs of your color choice operating simultaneously, or three White LEDs and three LEDs of your color choice operating independently of the other color. The TaskLight 600 series has an intensity knob and on/off switch built in and operates with input voltages ranging from 10v to 30 volts. Made in the USA, each LED Tasklight 600 is manufactured and tested to AS9100C quality standard and Traceability for quality assurance and customer satisfaction.

| Single Color | Part No. | Price |

PILOT LIGHT PRO

Pilot Light Pro serves two main functions. It provides hands free panel lighting, as well as map lighting, using the latest in LED technologies it delivers 19 hours of continuous use. Pilot Light Pro is delivered with two AA Procell 1500 batteries installed, and may also optionally be installed using ships power. The internal circuit board will cut off the internal battery source once ships power is turned on. Loss

of ships power will return the unit back to it's battery source, leaving you with light to work by in the advent of any problem i.e. loss of alternator.

Quick Installation: Installation is quick and easy if using battery only option, simply peel and stick using 3M power lock. The panel light is fully adjustable see our web site for installation instructions. Wiring to ship's power will require a Licensed A&P and a 337 Form, field approval may be required by local Fisdco.

PURE DIGITAL SOLAR POWERED SMART LED LIGHT

High Motion Detection Performance: Built in next generation ePIR technology with outstanding detection performance.

Visual Illumination and Powerful Warning Enhancement: Super bright LED matrix enhances deterrent effect towards intruders and capture ability of video/CCTV.

Emergency Function: Automatically illuminate in case of power outage.
Hybrid Power Source: Solar power, car lighter and standard AC power supply individually or combined charge green Li-polymer battery.

Intelligent Power Management (IPM): Exclusive IPM technology monitors battery capacity and power source status, controls battery charge and discharge process, and as well as generate the most efficient illuminating process with dusk to dawn capability.

Practicability: Highly practical for "Security & Safety Combining Programs" with multi-function and lighting back-up features.

In the box: 1. LED Matrix Light with ePIR 2. Solar Panel (10VDC / 3W)
 3. Li-Poly Battery (7.4VDC / 1.0 AH) 4. Wall Mounting Plate with Hardware 5. Table Stand (Bonus) 6. Digital Power Supply 12VDC /1.0A (Bonus)

SMART SOLAR LIGHT

SMART Solar Light, Built with CREE LED, 180-Degree Coverage. It offers true Dusk-to-Dawn lighting with innovative SMART lighting profiles. It has built-in auto compensation for all weather conditions and variations of geographic locations. This light is embedded with an exclusive pure digital hybrid lighting engine. Max-brightness or dimming of Moonlight lighting is controlled with user adjustable dials. In

SMART AUTO profile it acts as a traditional motion security sensing light. It also can replace the traditional IR illuminator as a white light illuminator for security video surveillance systems without AC power limitation and in darkness conditions it provides enhanced full color image vision. This is a highly efficient SMART solar light designed for residential, commercial, industrial, & recreational lightingP/N 11-13884\$103.95

PSA NAVIGATIONAL AND TAIL LIGHTS COMBINATION

Green/Clear or Red/Clear, 14 Volt, Navigational and Tail Light combination units. They have a mounting footprint of 1.88" to 1.75" cc. They each come in a complete assembly and are sold as a set. They are easy to install and manufactured and tested to meet FAR section 23.183-23.191 and all applicable requirements of D0160G for EMC, EMI, vibration & thermals under normal operating conditions for position lights.

Meets or exceeds AS8037 REV B, AC20-74 and FAR specifications for all color coordinates and minimum intensities. Made in the USA. No RFI. Non-PMA. Weigh in at 1.6 oz. and draw .25 amps each.
