RAM ADAPT-A-POST™ TRACK BASE

For the serious kayak angler, the RAM® Quick Release Track Base is a universal mounting solution for a wide variety of RAM kayak products. The RAM Adapt-A-Post™ Quick Release Track base is available to mount the full line of RAM Post and Spline rod holders, for your heavier fishing rod setups. Designed to accommodate most kayak tracks, quickly fasten and adjust the base to your existing track system or add a track system to kayak set up. Popular tracks include Yakattack's GearTrac System, Wilderness Systems SlideTrax and common T-Slot Track Systems. To adjust, simply depress the release buttons and turn the ball counter-clockwise. The base will slide along the track, giving you the ultimate flexibility in repositioning your rod holder or mounted device. The RAM Quick Release Track base can be installed at any point along the track without the need to feed in from one end of the track. A necessity for all fishing enthusiasts, the RAM Quick Release Track Base is certain to create more mounting options on whatever you choose to take to the water. Material: High Strength Composite.... P/N 11-14951 \$15.50

RAM EZ-ROLL'R CRADLE FOR APPLE IPAD PRO 11-INCH

The RAM® EZ-Roll'R™ cradle for the iPad Pro 11" secures your device in a form-fit holder while keeping the entire screen visible. Simply slide your iPad into the cradle and roll the top clip over the device to secure into place. The side buttons, camera, and charging port are conveniently exposed and accessible. This RAM® EZ-Roll'R™ cradle also features three attachment points on the back to attach a RAM® round ball base. An attachment point on the side of the cradle allows for the placement and removal of the Apple Pencil..... P/N 11-17593 \$22.95

X-GRIP - The NEW RAM X-Grip is perfect for the modern pilot. Sleek, user friendly, and universal, the RAM X-Grip is the right cradle for the techno savvy pilot. Pats. Pend.

Features:

1. Spring loaded holder expands and contracts for perfect fit of your device.
2. Rubber coated tips will hold device firm and stable
3. Versatility of holder allows for attachment to many RAM-to-RAM ball mounts.
4. Single socket technology allows for multiple adjustment angles and articulation of device.

RAM DOUBLE SUCTION CUP BASE WITH 2-1/2 ROUND BALL ADAPTER FOR GARMIN AERA

Ram Double Suction Cup Base. 3.3" Diameter Suction Cup with Twist Lock. Note: This does include mounting hardware.

P/N 11-14087 \$36.00

RAM® TWIST-LOCK™ DUAL PIVOT SUCTION CUP BASE WITH BALL

RAM® suction cups are regarded as one of the most impressive suction cups in the world. Their incredible holding power is surprising when considering how most suction cups function. When two suction cups are used together the performance is amazing. The RAM® Dual Articulating Suction Cup is an amazing innovation in suction cup mounting. With the ability to independently articulate each suction cup, this mounting base can be used in a variety of applications such as curved windows and surfaces. Whether you are mounting to a curved surface on a vehicle, or a curved windshield, this product is the ideal solution for secure suction cup mounting.....P/N 11-18174 \$48.80

RAM TRACK BALL™

WITH T-BOLT ATTACHMENT

The RAM Track Ball is made up of a B size 1" or a C size 1.5" rubber ball molded to a high strength composite base, a rubber friction washer and a stainless steel T-bolt for sliding into virtually any track system. Simply insert or slide the Track Ball into your track and twist the ball clockwise to tighten in place. Twist counterclockwise to loosen or adjust the ball. Material: High Strength Composite. T-Bolt Dimensions: .48" x .95"

Description	Part No.	Price
1 Inch	11-14949	\$9.80
1.5 Inch	11-14950	\$12.75

RAM FLEX-ROD™ TRACK MOUNT

The RAM Flex-Rod™ Track Mount is made up of an 18" rigid aluminum rod with a ribbed plastic cover, a track base with T-bolt for virtually any track system, and a B size 1" rubber ball at the top for connecting any RAM ball and socket mounting components. Simply insert or slide the mount into your track and twist clockwise to tighten. Twist counterclockwise to adjust or remove the mount as needed. Material: High Strength Composite P/N 11-14952 \$41.50

MAGICMOUNT™ MAGNETIC DASH MOUNT

MagicMount™ is the multi-award-winning magnetic mounting system for conveniently mounting smartphones and more. Place the included MagicPlate™ behind your case or battery or directly to its surface, and then simply hover your device near the magnetic to instantly lock it securely in place. This cell phone mount system is sleek and versatile. The cradle-free design uses high-powered magnets to secure your device where you use them most. Place your device at any angle for convenient viewing. In the air, on the road, at home, everywhere P/N 11-15325 \$19.95

CLEARVIEW UNIVERSAL TABLET YOKE MOUNT

The mount is delivered completely assembled and can be installed in less than a minute. Three spacers are supplied to allow the height of the main bracket to clear the yoke pad of various aircraft. The yoke clamp is machined from aircraft grade aluminum and will accommodate up to a 1.6" diameter yoke tube. The height adjustment is used to place the iPad in the optimum position for viewing the panel and the iPad's screen. In addition, the iPad can be rotated 180 degrees to temporarily set it higher during cruise flight when full access to the panel may not be needed. A quick 180 degree flip restores the normal sight line. The iPad is placed into the holder by positioning the bottom of the iPad into the lower L brackets and pressing down to extend the spring loaded mechanism. Then rotate the tablet beneath the upper L brackets. Removal is equally simple and quick P/N 11-17600 \$126.00
