

FLASHLIGHTS

MAGLITE LED FLASHLIGHTS

MAG-LED™ Technology known for their obsession with precision engineering, craftsmanship and commitment to perfection, was not satisfied with the performance of a "regular" LED as a usable light source. They set their sights on producing a light source that would not only incorporate longer battery life, but would also have the kind of durability, reliability, and performance Maglite® flashlights are known for. With an emphasis on uncompromising performance, MAG-LED™ Technology is the result of that quest.

Push-button On-Off switch with convenient 7 minute Auto-Off feature. Over 40 hours of light using replaceable lithium watch batteries (included).

Fits easily into shirt or uniform pocket.
Green LED Quiqlite..... P/N 13-02728 **\$4.50**

FLIGHT OUTFITTERS 3-IN-1 FLASHLIGHT

Flashlight, cliplight, and headlamp in one compact device.

This multifunction light can replace a whole bag full of flashlights and headlamps, but it's small enough to carry on every adventure—perfect for the hangar, airplane, garage, and campsite. Rugged aluminum construction and long-lasting LEDs mean you can count on the 3-in-1 Pilot's Light for years of service, but the simple operating logic is easy to use in a dark cockpit. Whether you're inspecting the landing gear or lighting up the panel, this light can do it all.

Three modes:

- Flashlight: light up the engine compartment or preflight the tail with two levels of bright white light
- Cliplight: twist the head 90 degrees and use the clip to attach to a hat, seatbelt, or pocket
- Headlamp: use the included elastic headband to make this light completely hands-free P/N 13-23890 **\$39.95**

FLIGHT OUTFITTERS BUSH PILOT RECHARGEABLE FLASHLIGHT

Illuminate the night with this powerful, rechargeable flashlight. Smart Select Dial provides five unique light modes that can be accessed without scrolling through each one.

Blast up to 1,000 lumens of white light for safe preflight inspections, or provide up to 120 hours of low-level green light so you don't disturb sleeping passengers. An adjustable beam provides spot and flood light modes, and there's even a strobe setting for emergency signalling.

The Bush Pilot Flashlight is charged via a USB port, so you don't have to worry about carrying AA batteries; it will recharge from your cigarette lighter, portable battery pack, or wall plug. Plus, the same charging port can provide output for keeping your phone at 100% (does not charge tablets). Constructed with aircraft-grade aluminum, the Bush Pilot Flashlight is water-resistant and tough enough to survive life in a bush pilot's airplane. A magnetic base makes mounting to crew cars or luggage carts quick and easy—it's perfect around the hangar.

No flight bag is complete without this ultimate backup flashlight.
