

SPINNERS – PROP GUARD

PROP GUARD FOR 2 OR 3 BLADE PROPELLER

Anti-abrasion boot for your metal propeller. It is more economical to protect your propeller blades with PROP GUARD than to continually file, dress, paint and balance your blades until they have to be replaced. Water, sand, rock, and airborne abrasives are constantly eroding your propeller. As the name suggests, this product can eliminate this destructive process. Virtually all propeller blade failures start as leading edge nicks.

PROG GUARD is a 0.018" thick clear anti-abrasion boot that is bonded to the leading edge of the propeller.

PROG GUARD is made from a special high strength heat processed polymer engineered for centrifugal loads. It is NOT just a piece of tape! Easy to install (approximately 20 minutes installation time)

No performance loss

Fully tested

Reparable

STC FAA-PMA approved (minor alteration, no form 337 required)

Kit contains:

This rubber coated roller makes working air bubbles out during installation easier than using the spatula included with the PROP GUARD kit.
