

# APS BRAKE DISCS

APS brake discs are state-of-the-art CNC machined from a one-piece forging. When the metal is forged it creates a directional grain flow that follows the contour of the disc. This allows for a much stronger disc that has a reduced risk of the cracking and catastrophic failures associated with the inferior welded design. The APS "Black Steel" advantage is a proprietary heat treatment with a two-fold purpose. The heat treatment strengthens the steel by bonding the carbon, oxygen and nitrogen in the top layer of the metal. This is not a coating that can wear off. The steel itself is transformed. The heat treatment gives the steel its aesthetically pleasing black appearance and provides a surface with a high resistance to the corrosion and oxidation associated with the extreme thermal cycling experienced in aircraft braking systems. This makes it an excellent choice for agricultural aircraft that work in a harsh, chemical environment, as well as anyone who leaves their plane outside for most of its life.

**SEE OUR WEBSITE FOR AIRCRAFT APPLICATION CHART!**

APS Part Number	OEM Part Number	Description	Part Number	Price
APS164-00300	164-00300	APS164-00300 Blacksteel Brake Disc	07-20106	\$105.75
APS164-00400	164-00400	APS164-00400 Blacksteel Brake Disc	07-20107	\$105.75
