

# CLOCKS – TIMERS

## ASTROTECH QUARTZ CHRONOMETERS

A fine quality 2-1/4" instrument to satisfy all cockpit clock/timer needs. 12 or 24 hour clock, 24 hour elapsed timer with time-out or hold feature, month and date. Will operate on internal battery for 2 years or can be connected to electrical system. 12 or 28V DC operation. **Does not include internal battery.**

Part No.	Model	Description	Price
10-05855	LC-2	Panel Mount Two AAA Battery Powered	\$680.00
10-06811	LC-2	Panel Mount Aircraft Powered	\$765.00

**NOTE: For Aircraft Application Information on Astrotech Chronometers visit [www.aircraftspruce.com](http://www.aircraftspruce.com)**

## FLIGHT DATA SYSTEM ELECTRIC TACHOMETER

Tachometer: Monitors both left and right ignition systems. Works with magnetos and electronic ignition. Warns when an ignition system has failed. Engine Hour Meter: Saves engine hours in "tach time" or actual time. Flight Timer: Automatically records flight time. Features: Large and easy to read digits. Extreme operating temperature display. Soft orange backlight with automatic brightness. 2-1/4" panel mounted. Weighs 2.6oz. Includes pre-wired connector. 12-28 volt compatible.

P/N 10-03898 .....\$174.95

## AEROSPACE LOGIC 200 - CLOCK, OUTSIDE TEMPERATURE KIT

The CA200 is an advanced, next generation airborne timepiece plus a seven input annunciator. It can scan seven 200 Series instruments and report any out-of-limit conditions the moment they occur; all on one instrument. Once identified, simply glance over the panel to view the exact cause for concern.

With the CA200 mounted either in or close to your primary panel scan you will reduce the need for consistent full panel scans and be automatically made aware of any condition requiring attention.

The CO200 is identical to the CA200 with the exception of the annunciator function. Using one of the world's most accurate digital timebases they will provide precise time for years to come.

Outside air temperature functionality is TSO'd and meets the temperature accuracy requirements of SAE AS8005 for a Class IIa (+/- 1%) instrument. Functional displays include:

- UTC Time • Local Time • Chronograph • Flight Time and Interval Timer • Seven annunciator sense inputs (CA200 only)

## WESTBEND DIGITAL QUARTZ TIMER

This timer from Westbend is the perfect size for cockpit use. It times up and down, and has a large, easily readable display. With a clip on the back for mounting on a kneeboard, and includes battery. The hang card makes it easy to display, too. Counts up to and from 100 hours. Includes clip, stand, magnet and hanging hole for ease in use. LCD readout. Electronic alarm. AAA battery included. 2.5" x 2.5" x .5".....P/N 13-31380 .....\$13.60

## XREXS® DIGITAL TIMER

This timer is the perfect size for cockpit use. It times up and down, and has a large, easily readable display. With a clip on the back for mounting on a kneeboard, and includes battery. The hang card makes it easy to display, too. **Specifications:** • Timer size: 2.95x 0.75x 2.56 inches • LCD display: 2.44 x 1.06 inches • Color: White • Weight: 95g • Material: ABS plastic • Power: 2 AAA batteries (included)

P/N 13-23273 .....\$28.85

## SUPERCLOCK FROM ELECTRONICS INTERNATIONAL

Displays local and Zulu time. May be set to display in a 12 or 24-hr format. A 10-year lithium battery keeps the clock running even if the aircraft battery is removed. Displays an Up Timer, that will start running when the engine is started. Acts as an automatic Flight Timer. The Up Timer may be started, stopped or reset. A Recurring Alarm may be set to alert you at appropriate time intervals. Displays a Down Timer. Displays an Engine Timer. Acts as a Hobbs Meter. When the engine

starts, the Engine Timer will run. **Specifications:** 2-1/4" mount. 3.65" Depth. 10 Oz. Unit. Viewable in direct sunlight. Backlit for night operation. Operates from 7.5 to 35 volts at .3 amps .... P/N 10-01612 .....\$359.00

## MID-CONTINENT CHRONOS DIGITAL CLOCK / MAX POWER USB CHARGERS

The CH93 series, part numbers 6420093(-), is a multi-function digital clock / chronometer / voltmeter / temperature unit with multiple options for USB Charging Ports. The unit fits into a standard, rear-mounted, 2-1/4" avionics panel cutout. Power is drawn from the aircraft main bus to light a white, six digit, seven segment LED clock. The clock can display several different modes: local time, universal time, flight timers, elapsed and countdown timers and optionally, bus

voltage and up to two temperature inputs. The CH93 display is daylight readable with two methods of brightness control. It can be controlled automatically using the internal photocell or manually with an external dimming bus voltage. The CH93 clock has an internal battery to maintain clock time and flight timer memory when the aircraft is not in use.

The USB Charging Ports are designed as DCPs (Dedicated Charging Ports) to industry-standard protocol per the USB Battery Charging 1.2 Compliance Plan. Some models also comply with the higher power requirements of USB Power Delivery 2.0 and 3.0. Early-generation or smaller consumer electronics typically accept one (1.0) amp during charging. However, newer electronics, such as tablets and larger devices can accept, and in some cases, require up to 3 amps to charge and operate.

Description	Model No.	Part No.	Price
Digital Clock Only	6420093-0	10-07369	\$449.00
Dual USB-A/USB-C PD 75 W/6A	6420093-5	10-07292	\$799.00
Single USB-A Charger 15W/3A Out	6420093-3	10-07294	\$599.00
Dual USB-A 30W/6A Out	6420093-4	10-07295	\$695.00
Dual USB-A Charger 30W/6A Out	6420093-2	10-06963	\$635.00

## PRECISION QUARTZ AIRCRAFT CLOCKS

Designed for accuracy, this precision clock is manufactured to meet rugged aircraft environmental standards. High-quality, solid state quartz movement. Comes with a factory one year limited warranty.

**Features:** FAA/PMA approved. Precision quartz movement. Transient and reverse polarity protected. One year limited warranty. Continuously powered by aircraft battery. Low power consumption (3mA). Fits standard 2-1/4" panel hole

**Specifications:** Dimensions: 2.5 x 2.5 x 3.2

inches max. Weight: 0.5 lbs.. Altitude: -1,000 to +55,000 feet. Mounting: Front or rear panel.

Lighted Quartz Electric Clock (14V) .....P/N 10-00460 .....\$357.00  
Lighted Quartz Electric Clock (24V) .....P/N 10-04615 .....\$357.00

## QUARTZ ELECTRIC AIRCRAFT CLOCKS

These clocks are constructed for easy installation in a wide variety of aircraft. The rugged quartz movement is accurate within 2 seconds in 24 hours under normal operations and runs accurately in temperatures from -30°-180°F. The clock kit includes a power harness, mounting screws and installation instructions. The clock features adjustable red elapsed time hands.

12V .....P/N 10-22812 .....\$155.85  
24V .....P/N 10-22824 .....\$153.75

## MID-CONTINENT INSTRUMENTS AND AVIONICS QUARTZ ANALOG ELECTRIC CLOCK

FAA PMA approved. Precision quartz movement. Compact 2 1/4-inch size – fits standard panel cutout. Transient and reverse polarity protected. Original equipment for many major aircraft manufacturers. Low power consumption (3 mA). Continuously powered by aircraft battery. One year limited warranty. Lighted.
