

TELEDYNE SEALED BATTERIES

The Gill LT Sealed line provides reliable sealed valve regulated lead acid (VRLA) batteries with higher starting power, higher residual power and faster re-charging. These batteries are ideal for the high demands of Jet, Rotor and Turbo aircraft and for anyone who needs more power. They are backed by a 2 year mfg. warranty and do not require a capacity check for a full 18 months.

LT SEALED BATTERY SPECIFICATIONS

| Model | Volts | Amp Hours | 30 Minute Emergency Capacity | Max Weight lbs. | Power Performance (A) | | | | | | Part No. | Price |
