

## GARMIN D2™ AIR X10 AVIATOR SMARTWATCH

You're a pilot. You need aviation in your GPS smartwatch. You also want to monitor your health plus take calls and send texts from your wrist when connected with a compatible smartphone.

The D2 Air X10 includes preflight, in-flight and postflight features and tools to assist pilots in navigation and enhance situational awareness. Direct-to navigation lets pilots navigate straight to an airport or waypoint in the preloaded worldwide database directly from the watch, or choose the Nearest function to activate a direct course to a nearby airport. The instrument-like horizontal situation indicator (HSI) course needle makes it easy for pilots to see if the aircraft is left or right of the desired flight path, and the barometric altimeter can alert them when they've reached their desired altitude. Aviation alerts like time, distance, altitude and a fuel timer are also available on the D2 Air X10 during flight.

Flight logging is a breeze with the D2 Air X10, which automatically starts tracking flights on takeoff, then automatically transfers the date, duration, total flight time and route to the user's flyGarmin.com logbook. Pilots can also seamlessly transfer flight plans from the Garmin Pilot app to the D2 Air X10 and view the list of waypoints included in their route when the D2 Air X10 is paired to the app on a compatible smartphone.

**Features:** • AMOLED touchscreen display keeps you informed at a glance, even under bright sunlight • Use the worldwide aeronautical database, moving map and HSI to help navigate — plus the emergency mode displays information that helps you land in an emergency • Access aviation weather, including NEXRAD, METARs, MOS2 and TAFs — plus configure alerts to keep you informed about weather and more • View airport info, including runway orientation (including wind components<sup>1</sup>), lengths and airport frequencies • Utilize the Pulse Ox3 sensor to monitor blood oxygen levels and the barometric altimeter for altitude alerts • Battery life up to 11 days in smartwatch mode, up to 24 hours in GPS with SpO2 mode; battery saver mode option allows user to adjust settings that have the largest impact on battery life • Connect with the Garmin Pilot™ app to transfer flight plans to the watch plus log your flights directly on the watch<sup>1</sup> • Find new ways to move with more than 30 built-in indoor and GPS sports apps, including HIIT, running, strength training, breathwork, cycling, yoga, Pilates, cardio, indoor climbing and many more • Monitor your health and wellness with the Health Snapshot™ feature, sleep score, respiration tracking, Pulse Ox3, Body Battery™ energy monitoring, hydration tracking, all-day stress tracking and 24/7 heart rate monitoring<sup>4</sup> • Download songs and podcasts from your favorite music providers — including Spotify, Amazon Music and Deezer — right to your watch, and connect with your wireless headphones for phone-free listening (storage for up to 650 songs); premium subscription may be required.

## GARMIN D2 CHARGING AND DATA CABLE

Complete 2 tasks with 1 cable using our charging/data clip. Connect the cable to your computer's USB port to recharge your compatible device and to transfer data to and from your computer.

### Compatibility with Devices:

- D2 Air
- D2 Charlie
- D2 Delta
- D2 Delta PX
- D2 Delta S.....P/N 11-18501 .....\$24.95

## GARMIN D2™ MACH 1 AVIATOR SMARTWATCH

With classic style and a modern AMOLED touchscreen display, this premium smartwatch offers advanced tools for flying — plus health and fitness features that enhance your pilot life.

GPS aviator smartwatch with classic pilot watch styling and a bright AMOLED touchscreen display that offers advanced tools for flying — plus health and fitness features — to help pilots and aviation enthusiasts accelerate their adventures. With a battery life of up to 11 days, pilots can rely on the D2 Mach 1 around the clock to keep tabs on the weather, receive

automatic alerts for changing conditions<sup>1</sup>, help navigate with the moving map and horizontal situation indicator (HSI) and so much more. Coupled with a full suite of health monitoring and activity tracking features, the D2 Mach 1 offers unmatched utility both in and out of the cockpit.

"Whether you're climbing into the cockpit for a fun weekend flight, practicing or shooting instrument approaches to minimums or flying professionally, the new D2 Mach 1 delivers the latest and most advanced aviation functionality and smartwatch capabilities right to your fingertips," said Carl Wolf, Garmin vice president of aviation sales and marketing. "With its new, sophisticated design, the D2 Mach 1 proves that professional gear can also be a great statement piece no matter your destination."

## GARMIN D2 AIR AVIATOR SMART WATCH

Featuring a slim and stylish AMOLED touchscreen, this watch couples a lightweight feel with powerful features, such as a built-in wrist-based Pulse Oximeter for oxygen saturation awareness, Garmin contactless payment solution, and storage for music playlists and more. This watch is designed with pilots and aviation enthusiasts in mind and is the perfect combination of functionality and affordability.

The D2 Air features a polished stainless-steel bezel, a durable 30 mm Corning Gorilla Glass 3 lens, and a vivid AMOLED

Touchscreen color display. With the smallest, yet brightest, screen in the D2 series, this watch weighs in at only 1.6 oz. With the ability to change out the bands for a more customized look, the D2 Air comes with a black leather band and black silicone band.

There When You Need It — Pre, During, and Post Flight Features  
The beautiful AMOLED display brings the watch to life, even in a bright cockpit. The aviation-themed watch face shows your passion for the sky, and the always-on mode keeps flight information right at hand. Access aviation weather, including METARs and TAFs, to see winds, visibility, barometric pressure and more. View airport information or Navigate Direct-To a location or waypoint in the worldwide aeronautical database or activate a path to a nearby airport using the Nearest function. Use the instrument-like HSI course needle to stay centered on your desired flight path.....P/N 10-07160 .....\$499.00
