

GOODYEAR FLIGHT EAGLE TIRES

GOODYEAR FLIGHT EAGLE TIRES

With over 100 years of brighter ideas about lighter flight, it's only natural that Goodyear lights the way with LJs and VLJs.

Goodyear Flight Eagle LT is a new tire, but it's already been chosen for the Embraer Phenom 100 and Phenom 300 aircraft. The LT stands for Light Turbine... a new generation of aircraft tires for demanding high speed take-offs and landings.

Features: • Computer-aided design • Special inner-liners • Enhanced bead compounds and construction • Sidewalls with a reservoir of antioxidants • **Benefits:** • Maximum number of landings • Enhanced air retention • Great serviceability and resistance to wheel damage • Special wear-resistant tread compounds Low cost-per-landing • Excellent resistance to weather effect of sunlight and ozone
