

SPECIALTY TIRES & TUBES

SPECIALTY TIRES & TUBES

Manufactured by
Specialty Tires of America
(Formerly McCreary)

These fine nylon cord tires with rib tread design are rigidly tested to meet FAA Standard TSO-C62. The Air Trac® is an excellent choice for single engine, piston aircraft. It is ideal for aircraft operated on grass strips while being perfectly usable on hard surfaces. This unique, narrow-ribbed, oval shaped tire is designed for soft field applications.

The 7.00/8.00-6 tube can be utilized in both 7.00-6 and 8.00-6 tires.
