PIVOT A20A CASE - FITS iPad AIR (4TH AND 5TH GEN.), iPad PRO 11-INCH (1ST THRU 4TH GEN.) - BLACK

The PIVOT A20A is an elegant, robust case designed specifically to accommodate the key features of iPad Air (4th and 5th gen.) while maintaining full compatibility with the iPad Pro 11-inch (1st, 2nd, 3rd and 4th gen.). With numerous enhancements, this is the best PIVOT case yet. It offers unbeatable 360-degree protection from drops, impacts, and scratches, while the detachable PIVOT Screen Cover provides superior screen protection in transit and while connected to any PIVOT mount. The improved 2nd generation PIVOT Kickstand is reinforced with internal ribs for maximum strength and durability and provides 120-degrees of adjustability to support a wide range of viewing angles. Improved openings for the iPad's wireless antennas facilitate flawless reception for cellular, Wi-Fi and Bluetooth.....P/N 11-19544\$149.95

PIVOT PRO 105 CASE - FITS iPad PRO 10.5-INCH, iPad AIR (3RD GEN.) - BLACK CASE / BLACK CLIP

The PIVOT PRO 105 features full compatibility with the iPad Pro 10.5-inch and iPad Air (3rd gen.). With one-piece construction, an inner shock-absorption layer, and a hardened shell, leverage your iPad to its maximum potential while ensuring unparalleled protection for your device whether you are at home, on the road or in your aircraft. It securely connects to any PIVOT mount using the patented and exclusive PIVOT Click-Connect mounting system. The system is simple and intuitive: slide the case onto the mounting plate through the Click-Connect mounting channel until the integrated clip secures it in place with a "CLICK." Remove the case by simply pressing the top of the clip to release it and slide the case off of the mount.....P/N 11-19542\$144.95

PIVOT CASE FOR iPad MINI 4/5 GENERATION - BLACK BODY / BLACK CLIP

The PIVOT MN5 is a versatile and rugged case for the iPad Mini (5th gen.) and iPad Mini 4. It fully supports all the features of these iPad models, including the fingerprint scanner, cameras, microphone, and more, ensuring that you will be able to get the most out of your iPad while providing the best protection from damage of any case on the market. With one-piece construction, all polycarbonate top-plate, inner shock-absorption layer, and a hardened shell, leverage your iPad to its maximum potential while ensuring unparalleled protection for your device whether you are at home, on the road or in your aircraft. It securely connects to any PIVOT mount using the patented and exclusive PIVOT Click-Connect mounting system.....P/N 11-19539\$139.95

PIVOT PRO11 CASE - FITS iPad PRO 11-INCH (1ST-2ND GEN.) - BLACK

The PIVOT Pro 11 (2nd gen) fully supports the key features Apple implemented in the iPad Pro 11-inch (2nd generation), including the Advanced Pro cameras, LIDAR Scanner, Apple Pencil and more. Leverage your iPad Pro 11 to its maximum potential while ensuring unparalleled protection for your device whether you are at home, on the road or in your aircraft. The PIVOT Pro 11 (2nd gen) securely connects to any PIVOT mount using the patented and exclusive PIVOT Click-Connect mounting system. The system is simple and intuitive: slide the case onto the mounting plate through the Click-Connect mounting channel until the integrated clip secures it in place with a "CLICK." Remove the case by simply pressing the top of the clip to release it and slide the case off the mount..P/N 11-19543\$139.95

PIVOT CLAW MOUNT

With incredible clamping power from the Tough-Claw Clamp, the PIVOT Claw Mount will not lose its grip, ensuring that your device remains exactly where you mounted it regardless of flight conditions. The small clamp works on round, square, and odd-shaped rails and bars ranging from 0.625" to 1.5" in diameter, and flat surfaces ranging from 0" to 1.14" in thickness. It is also available with an extended arm for applications that require a little more reach. The medium clamp works on round, square, and odd-shaped rails and bars ranging from 1" to 1.875" in diameter, and flat surfaces ranging from 0" to 1.6" in thickness.....P/N 11-19558\$59.95

PIVOT YOKE CLAMP MOUNT

Introducing the PIVOT Yoke Clamp Mount, an unbeatable yoke-mounting solution. It is available in two sizes to a wide range of aircraft. The Small Clamp fits aircraft with yoke rods between 1-2.1 inches in diameter, such as those found in Cessna aircraft. The Large Clamp fits aircraft with yoke rods between 2-3 inches in diameter, such as those found in the Beechcraft Bonanza and other popular aircraft.

Large ClampP/N 11-19560\$49.95

PIVOT DOUBLE SUCTION CUP MOUNT - 0.75-INCH BALL ARM

This mounting solution is highly recommended for helicopter applications. The most secure mount available to handle the most demanding operational environments. With dual locking suction cups, this mount provides peace of mind that regardless of acceleration forces or vibration inherent to certain aircraft, the mount will remain securely attached throughout the entire flight. Originally designed to meet the demands of the military and the helicopter community, and now available for all pilots who require maximum grip from their mount.

22cm ArmP/N 11-19550\$119.95

PIVOT DOUBLE SUCTION CUP MOUNT - 1-INCH BALL ARM

This mounting solution is highly recommended for helicopter applications. Double Suction Cup Mounting: Provides extra grip for applications where two suction cups are desirable, such as on highly curved surfaces or in aircraft that are prone to high vibration levels, such as helicopters.

Complete Mounting Solution: Includes all hardware necessary to mount a PIVOT case in virtually any aircraft, vehicle, desktop, or other non-porous surface. Dual PanaVise Locking Suction Cups: Nearly unbreakable grip thanks to the mechanically activated dual-mode suction cups. PIVOT Click-Connect: Quickly and securely attaches to any PIVOT case. FAA Approved: Tested and approved by the FAA for use in-flight.

HIGH DEFLECTION FLUSH PERMANENT MOUNT

The High-Deflection Flush Permanent Mount offers a durable, low profile, permanent mounting option, with a high-deflection adapter that provides additional flexibility and device viewing angles. Can be mounted to certain aircraft yokes, instrument panels, or anywhere else that make sense based on the application. Depending on the aircraft and under what rules it is operated (Part 121, 135, etc), installation of this mount may require engineering and/or regulatory authority approval.
