09-42608ea.

09-42823ea.

09-42821ea.

Made of aluminum foil with a pressure sensitive backing which adheres to most any surface that is clean and dry. The facing is made with a special anodize process which will resist sun fade-out and surface abrasion. These are the original placards that went into production in 1969. The placard material and anodize process meets Federal Specifications GG-455B and MIL-P-15024-B. The adhesive meets MIL-P-6906-A. Unless otherwise specified the placards are made of soft aluminum.

**NO LIFT PLACARD**  
Measures 3.25" x 1"  
P/N 05-11648

100/130 red on white.....P/N 09-33710 pr.

## GEAR DOWN BEFORE LANDING DECAL

Gear up landing incidents still occur everyday in all categories of aviation. The most important item on a retractable airplane's before landing checklist may be the "GEAR DOWN BEFORE LANDING" item. By placing this simple, non adhesive transparent "GEAR DOWN" decal within view of the pilot, you can insure a higher level of awareness and safety during your approach and landing phase of flight. 4-3/4" x 1-3/4". Color: Red & Black print on clear .....P/N 13-12967
