

HEADSET ADAPTERS

PILOT USA SMARTPHONE DIGITAL AUDIO ADAPTER

Turn your Smartphone or Tablet (iPhone, iPad, Android, Windows Phone, etc.) into a Cockpit Voice Recorder! You'll be able to record audio through your aviation headset. Your Smartphone will be able to record all transmissions through the Intercom systems including in-cabin and ATC transmissions. Great for CFI's and Students to review radio communication skills after the flight!P/N 11-10531

ANR HEADSET RETROFIT KIT

The ANR Adapter is a product that will transform a current aviation headset into a high-tech active noise reduction unit. The ANR Adapter comes as a kit and includes a pair of inserts that fit more than 20 different headset models. Installation requires fitting the inserts, drilling a small hole in one earcup for the power receptacle, and soldering the original cable leads to the kit replacement parts. (uses two 9-volt batteries). **IMPORTANT:** It is mandatory that you use "silicone gel" type earseals. The original earseals (dry or liquid filled) are not as airtight as gel seals, and in addition do not dampen sound and vibration as effectively. The result is that the ANR units will greatly underperform (20-50%) and will be more likely to malfunction. David Clark typeP/N 11-19955

AMP CABLE (AUDIO+MIC+POWER)

A standard ANR upgrade kit comes with a 6' long add-on power cable which tie-wraps to your original audio cable, and it requires that you drill a 1/4" hole in the left earcup (next to where the main cable enters the cup). The AMP cable replaces your original cable and has the DC power wires, audio wires and mic wires all in 1 cable. The result is more esthetically pleasing and no additional hole is required in the left earcup. P/N 11-03012

LYNX AVIONICS HEADSET CONVERTERS

- Connects twin jack headset or helmet
- Works with speakers from 8 to 600 Ohms
- Accepts dynamic, electret or carbon microphones

THE MUSE PERSONAL MUSIC DEVICE

PS Engineering, Inc's The Muse®, as simple and low cost way of interfacing your favorite entertainment device into your aviation headset. The Muse® is a miniature Personal Music Device (PMD) that allows connection of an entertainment source directly to your headset without complicated wiring or permanent installation--no rocket science here. About the size of a 9-Volt battery, The Muse® mates with stereo or mono headsets and has no effect on radio transmissions or intercom functions ...P/N 11-09045

IPOD / MP3 MUSIC ADAPTER

This adapter works with your existing intercom by pumping your music into any available mic jack, allowing it to be distributed through the intercom to everyone wearing a headset. Plug one end into the aircraft's mic jack and the other into your media player's headphone jack. • Compatible with ipod, iphone, mp3, CD, laptops, and most other portable media players • Music in your headset without costly upgrades • Listen to music through the aircraft's speaker during pre-flight • Plugs into standard mic jack • Just Plug and Play! No more wearing uncomfortable in-ear headphones under your aviation headset. No need for an expensive new intercom or new headset. This will work in any intercom system with an available mic jack. Maintain the comfort and quiet of your current headset; just add your favorite music! Also works great in many airliners.....P/N 11-07541

CLOUD9 HEADSET CONTROLLER HOLDER

Features: • 3D printed in Black Polycarbonate able to withstand high ambient heat in a hot cockpit when aircraft parked on the ramp. Polycarbonate can withstand ambient temps up to 120C (248° Fahrenheit). This is NOT printed in a low temp and low cost PETG as seen with other similar products. • Can be configured to mount to the aircraft window using the included suction cups. • Can be configured to be hard mounted to an instrument panel or when using the included clamping plate be mounted to soft aircraft interior panels • Can be mounted to existing Cessna Ashtray Frames in a piggyback fashion. • Integrated mounting slot for clip or strap commonly used when mounting in a hanging fashion behind the pilots head like often used in Helicopters and some regional jets.

PILOT 24V TO 12V CONVERTER / STEP DOWN TRANSFORMER

24v to 12v Converter / Step-down Transformer. The perfect low-cost 24v to 12v transformer for your 24 volt system aircraft. Run ANY device up to 5 AMPS total current draw. Use this in your experimental to drive a 12V cigarette lighter, 12v iPad, etc. Fits in the palm of your hand - it only weighs 2 oz.! Rated at 60 Watts, this converter is EASY to wire - Just provide 24volts positive to the RED line, Ground both black wires, and 12 Volts will flow OUT of the YELLOW wire. Simple as that! The least expensive 24v converter on the market!P/N 11-12192

MICROPHONE WINDSCREENS

PA-10M - Flightcom: 4DX, 5DX. Skycom H-40A, h-80A. Sigtronics: S-68, S-20. Peltor LE Sport, 7004, 7104. Telex: Stratus, Airman 750, ANR 150. David Clark: H 10-40, H-10-80, 10-20, 10-21, 10-26, 10-6-, 13.4. Pilot Hdsts: P-51, 11-40, all ANRs..... P/N 11-05808

M-87 - Headsets using M-87 Microphones (usually the mics in helmets such as Gentex or Gallet) P/N 11-05810

FABRIC WINDSCREEN MIC COVER / FILTER / MUFF

Keep your headset mic clean! CRAZEDpilot FABRIC Mic Muff Covers fit almost every microphone out there including David Clark M7 and M4, Lightspeed, Bose, Telex, and everything else we tried. Carefully grab the headset mic muff cover on both sides and pull it down gently into place. Headset mic covers for David Clark, Bose, Lightspeed, etc should be replaced annually for sanitary purposes, plus they help maintain the microphone quality - if the mic cover fails, moisture and dirt can then reach your microphone, which is an expensive part.....P/N 11-19709

HEADSET UPGRADE KITS
