

RADIORAX – QUICKRAX

RADIORAX THE REVOLUTIONARY AVIONICS RACK SYSTEM

Radiorax provides flexibility and ease of installation for panel mount avionics. The radiorax system consists of anodized slotted rails, stainless nuts, structural strength tray screws that are four times stronger than conventional screws used in aviation, and a stainless capture system that holds each nut where it is needed during assembly.

| Description | Part No. | Price |
|-----------------------------------------------------------------------------------------------------------|----------|-------|
| Radiorax Kit 1010-8 for Exp. A/C | 11-01376 | --- |
| RK1010 Single Stack Kit-STC for Exp. A/C | 11-01856 | --- |
| RK1020 Single Stack STC Kit-STC Exp. A/C | 11-01858 | --- |
| RK1030 Single Stack STC Kit Cirrus/Lancair | 11-01860 | --- |
| RK2000 Dual Stack STC Kit | 11-01862 | --- |
| RK3000 Triple Stack STC Kit | 11-01864 | --- |
| Single Rail - Special Order | 11-01866 | --- |
| RK1005 Cessna Kit | 11-02308 | --- |
| RK1040 Single Stack | 11-02309 | --- |
| RK2010 Kit -18" dual stack, flange, FAA-PMA, STC'd | 11-02608 | --- |
| RK2015 Kit - 18" dual stack, flanged outer, FAA-PMA, STC'd | 11-02609 | --- |
| RK2020 Kit -18" dual stack, reduced outer, FAA-PMA, STC'd | 11-02610 | --- |
| RK2025 Kit -18" dual stack, reduced outer, FAA-PMA, STC'd | 11-02611 | --- |
| RK3010 Kit - 18.0" triple stack, flanged outer + Full Dim. Center Rail Tray Mount Kit - FAA-PMA, STC'd | 11-02612 | --- |
| RK3015 Kit - 18.0" triple stack, flanged outer + reduced dim. Center Rail Tray Mount Kit - FAA-PMA, STC'd | 11-02613 | --- |
| RK3020 Kit - 18.0" triple stack, flanged outer + Full Dim. Center Rail Tray Mount Kit - FAA-PMA, STC'd | 11-02614 | --- |
| RK3025 Kit -18.0" triple stack, reduced outer + reduced dim. Center Rail Tray Mount Kit - FAA-PMA, STC'd | 11-02615 | --- |
| RK4000-12 Kit - Standard Closeout Panel - Chem Film - 12" Kit - FAA-PMA, STC'd | 11-02616 | --- |
| RK4000 - 12A Kit - Standard Closeout Panel - Black Anodized - 12" Kit - FAA-PMA, STC'd | 11-02617 | --- |

AV

QUICKRAX QT-MTK MASTER TOOL KIT

The Quickrax Master Tool Kit combines the three essential Quickrax tools into one convenient tool case. **In The Box:** • (11-20725) QT100 Hardware Starter Kit • (11-20726) QT200 Installation Spacer Kit • (11-20727) QT300 Mount Offsetter Kit
P/N 11-20728 -----

QUICKRAX QT300-K MOUNT OFFSETTER KIT

The QT300 Tool Kit is the easiest and most accurate way to modify trays for attaching to the QP1120 Center Rail used in multiple stack avionics installations. **In the Box:** • (1) QT300 Mount Offsetter • (1) #28 Drill bit • (1) Structural #6-32 screw for countersinking new mount holes
P/N 11-20727 -----

QUICKRAX QT200-K INSTALLATION SPACER KIT

The Quickrax QT200 Installation Spacer Kit for Quickrax 6-32 tray mount rails is the best way to quickly align and clamp the rails to your instrument panel build for alignment drilling the mount holes. **In The Box:** • 2) QT200 Installation Spacer assemblies • 8) NAS1352-06-8P structural 6-32 cap screws for mounting Spacers to Rails • 4) Milled Spacer Washers for surface mount rail (QP1050, etc.) installations • 1) Tool kit case.

QUICKRAX

Quickrax manufactures Avionics Rails, Dzus Adapters, Closeout Panels, Hardware, and Tools to simplify and add value to your next avionics installation/upgrade. Quickrax products are engineered for installation in both new and pre-existing instrument panels. Quickrax has revolutionized avionics installations with patent-pending face mount Avionics Rails that allow complete stack wiring on the bench and installation of the avionics suite as a single module.

QUICKRAX QT100-K HARDWARE STARTER KIT

The Quickrax QT100 Hardware Starter for 6-32 tray nut assemblies is a versatile tool that simplifies tray nut installation, adjustment, and removal. **In The Box:** • (1) QT100 Hardware Starter • (1) #2 reduced shank Phillips bit for starting tray screws • (1) 7/32" Bondhus hex ball driver for starting 6-32 cap screws used for mounting QT200 Installation Spacers, Dzus Adapters, and Closeout Panels.

QUICKRAX QP1120 TRAY MOUNT RAIL - .375 INCH WIDTH DRILL / TAP - DUAL SLOT

.375" width, dual slot offset rail, behind panel mount. Drill and 6-32 roll-tap attach points for installation to instrument panel with structural NAS514P632-4P screws. Rails are easily cut to length for your particular installation requirement. 6-32 Hardware sold separately.

18 inchP/N 11-20724 -----
12 inchP/N 11-20723 -----

QUICKRAX QP1050 TRAY MOUNT RAIL - .825 INCH WIDTH REMOVABLE FACE MOUNT - SINGLE SLOT

.825" width, single slot rail, patented front panel mount allows completed avionics suite to be installed and removed as a single unit. Rails are easily cut to length for your particular installation requirement.

QUICKRAX QH632-F SEMI-PERMANENT TRAY MOUNT PACK

6-32 tray mount hardware pack - NON-REMOVABLE from along the rail slot. The spring nut can only be installed and removed from each end of the rail slot. Note: This hardware is applicable to all Quickrax avionics rails, including the QP1020, QP1025, QP1050, and QP1120.
