## PILOT USA PA-1160A HEADSET

This aviation headset eliminates any need to compromise. Everything you want in a headset, comfort, able to be used with a stereo intercom and individual ear volume controls for perfect audio adjustment. The headset is designed to plug directly into the ICOM® aviation transceivers eliminating any need for extra adapters. It can also be used with the A22 but we suggest the PA-1160A/S with Straight plug for those models that have the input on the top of the radio. For ease of use, it includes an inline Press-To-Talk (PTT) switch on the comm-cord. **Note: Icom IC-A4 required straight plug connector. This right angle version will not fit.**

## PILOT USA BLUETOOTH CELLPHONE / MUSIC ADAPTER

BluLink enables you to use your Bluetooth cell phone and any music source wirelessly in the cockpit. You can use your existing general aviation, helicopter, Bose style panel mount, or military aviation headset with BluLink. No more tucking your cell phone under your headset or adapters with various additional cords and adapters. The BluLink will work with any cell phone with Bluetooth version 2.0 or lower. Great for filing a flight plan, checking weather, calling for fuel, getting a clearance at an uncontrolled field, calling a taxi, voiding a flight plan, closing a VFR flight plan, calling for a taxi. Can be use as primary communications for experimental and ultralight pilots.

For GA Headsets: Works for general aviation headsets equipped with standard dual plugs .....P/N 11-06553 .....
