

PUSH-TO-TALK - LEATHER HELMETS

PUSH-TO-TALK SWITCHES

ECONOMY PUSH-TO-TALK SWITCH

Similar to PT-300, this top quality switch is offered at considerable savings. Features gold contacts for durability.

Fully guaranteedP/N 11-12100..... ---

PTT-400 PORTABLE PUSH-TO-TALK SWITCH

Designed so that the pilot may push downward to invoke the radio transmit function, instead of the traditional "sideways activation" of typical strap-on PTTs.

Secures to the top of the vertical handle of the control yoke with provided velcro tape. Housed at the top of a thin, 1/2" dia. cylindrical enclosure, the soft-touch red push button is rated for 50,000 failure-free operations. 5ft. coiled cable terminates with standard plug & jack. Fast and easy plug-in installation, in virtually any aircraft....P/N 11-02072..... ---

PILOT USA PUSH TO TALK FOR YAESU HANDHELD RADIOS

Allows the user to transmit to ATC when the red button is engaged. Can be used with or without an intercom.

P/N 11-19322 ---

NAV-DATA PUSH-TO-TALK SWITCH

Push-to-talk switch with heavy duty construction and dual internal contacts. Included strap to attaches to most yoke controlsP/N 13-06089..... ---

PUSH TO TALK

Push to Talk Switch Fixed Wing Airplane Aircraft - INLINE with headset.

Allows the user to transmit to ATC when the button is engaged. Can be used with or without an intercom.

The Got Your Six Aviation Push-To-Talk button can be well positioned on the yoke or stick, and is extremely convenient with it's pass-through design plugging INLINE into the mic jack of your your headset (.206" standard Mic jack).....P/N 11-19710..... ---
