

PLASTIC PRY TOOLS – SCRAPING TOOLS

BOJO PLASTIC PRY TOOLS

Soft, yet strong, all Bojo tools are made tough enough to pry, but not hard enough to damage. These 4 tools are provided as a set.

PLASTIC GENERAL WEDGE TOOL - General narrow point for reaching in narrow spaces.

PLASTIC STICKER/GASKET TOOL - Wedge tip, for use where a wide area is desired with a "soft" touch.

PLASTIC PRY BAR TOOL - The forked tip. The original for removing door panels and plastic grommets.

PLASTIC WEDGE PULLER TOOL - The forked tip. The original for removing door panels and plastic grommets. Set of 4 listed above.

MASTER INSTALLER KIT - Soft, yet strong, all Bojo tools are made tough enough to scrape, but not hard enough to damage. Set of 7. P/N 12-00976

AIRCRAFT ASSEMBLY SCRAPER KIT - Soft, yet strong, all Bojo tools are made tough enough to scrape, but not hard enough to damage. Set of 4. P/N 12-00977

DELUXE SCRAPER KIT - This is an expansion of our original 4 Piece Scraper Kit (which you currently buy in the medium strength material NGL). The new tips were design from request in the aviation fuel bladder cleaning industry for the US Air Force and US Navy overhaul programs. This new, stronger material is highly resistance to all forms of chemicals and sealants. P/N 12-01858

Description	Part No.	Price
Pry Tool Large LFT-2-N	12-01859	---
Sheet Panel ADJ Tool Kit	12-01860	---
Wire Guide Tool ATH-30-GNL	12-01857	---

MULTI WEDGE NON-MARRING TOOL SETS

Multi Wedge non-marring tool sets allow home-builders and avionics installers to remove panels, dash trim bezels, and other interior moldings, including door panels, without causing damage. Excellent for use in aviation, auto restoration, body work, electronics installation, upholstery etc. The Orange Set (3400) P/N 12-01671 is made of a softer polyethylene plastic blend for prying dash bezels, trims, and moldings without damaging the vehicles interior. The Black Set (3500) P/N 12-01672 is made of a more expensive high impact polycarbonate plastic for prying harder materials such as thin walled aluminum engine covers and sheet metal panels.

01671 is made of a softer polyethylene plastic blend for prying dash bezels, trims, and moldings without damaging the vehicles interior. The Black Set (3500) P/N 12-01672 is made of a more expensive high impact polycarbonate plastic for prying harder materials such as thin walled aluminum engine covers and sheet metal panels.

Product Benefits: • Flexible • Slick surface for ease of prying • Built-in handle • Non-marring surface • Slim powerful angle
Multi Wedge Set Black (Hard) 3500 P/N 12-01672
Two Multi Wedge Sets - Orange (Soft) / Black (Hard) 3400/3500 P/N 12-01673

SEALANT CUTTERS

Sealant cutter quickly and safely removes thick applications of seam sealant for aircraft maintenance and repair. Eliminates the need for harsh chemicals. Saves time and effort. 1/4" x 28 Threaded Shank.

.40" Diameter P/N 12-02879
.83" Diameter P/N 12-02878

CSR-10 COMPOSITE SEALANT REMOVER

CSR is made from durable Torlon® material that can remove sealant in many applications at a lower product cost with greater efficiency and productivity. For aerospace applications, CSR is safe to use on common protective coatings and structural materials. CSR series can be used with 1/4"-28 UNF, 1/4" collet, and drill chuck interfaces. Screw in or attach/lock into rotary tool. CSR cuts by rotating in the clockwise direction.

Operate the CSR at 200-400 RPM for better controllability while avoiding heat buildup. Heat will accelerate wear on the CSR and may generate undesirable odor from the sealant. For general applications, use the CSR-10 to engage an edge of the sealant and allow the rotating action to cut through at the bond line. **Specifications:** • Diameter: 1" • 1/4"-28 UNF P/N 13-23407

BOJO STRONG 90MM WIDE SCRAPERS

3" (90mm) Wide Edge Scraper Tool Extreme or CELCON Material ITH handle.
Extreme P/N 12-04766
Celcon P/N 12-04768

BOJO EXTREME EDGE SCRAPERS
Composite Angle or Concentrated Extreme Edge Scraper Tools. Angle: for Sharp edges & corners. Concentrated: for scraping power into small regions.
Angle P/N 12-04769
Concentrated P/N 12-04770

2 PIECE LONG AND NARROW PRY TOOL KIT

Includes: • 1 - For wedging & splitting deep into narrow locations. (Flat tip) • 1 - For prying in narrow and deep locations. (Pry tip) P/N 12-04771

BOJO COMPOSITE ANGLED PUSH/PULL EXTREME SCRAPERS
Includes: • 1 - Composite Angled Push/Pull Extreme Scraper • 1 - Composite Flat Push/Pull Extreme Edge Scraper P/N 12-04772

BOJO SCRAPER EDGE
Narrow Edge Scraper Edge Scraper (1/4" Wide) P/N 12-04773

BOJO SCRAPER 3MM WIDE
Narrow Edge Scraper Edge Scraper (1/8" Wide). P/N 12-04774

BOJO 3 PIECE SMOOTHING KIT WITH POUCH

Sealant Smoothing Tool Kit "Extreme". Includes all three Bojo smoothing tools and vinyl pouch. Bojo Tools now offer a comprehensive range of sealant smoothing tools to complement the scraper systems supplied for aerospace, automotive and general industrial applications. Industry standard profiles and unique Bojo designed tips ensure economical, consistent and aesthetic application of all standard sealant types. P/N 12-04775

SCRAPERITE BLADES

Scrapelite® double-edged plastic blades and one holder. This original patented double-edged design is best for corner access and straight line scraping. It is the workhorse of the line, the blade series that helped build the brand and remains a key tool in many applications. These blades naturally lift dirt up and away without picking up germs and can be easily wiped with a disposable cloth after each stroke, unlike scrubbing pads and sponges that collect dirt with every pass. The Orange General Purpose (GPO) blade is a forgiving material soft enough to be used on most soft surfaces like other plastics, thanks to its natural lubricity and pliability. It also has good resistance to household and industrial chemicals making a great all-around blade for general use around the home or workplace. This resistance to chemicals makes it ideal for removing decals with chemicals like acetone used to quickly break down the acrylic adhesives. This material is approved by Alcoa and Boeing for use on aircraft alloys. Orange (General Use) - 5 Pack. P/N 12-05564

SEALANT REMOVAL TOOLS

These tools are full machined and/or laser cut, which helps them retain a sharp edge. The tools are used by many defense contractors and Naval air stations for sealant application, sealant removal, paint removal, acrylic canopy contact, and general use. They are made from cell cast acrylic or black nylon as noted. These tools can be resharpened on an abrasive belt or disc. Note: 15% Discount on 12 or more (Per P/N)

Model	Material	Part No.	Price
