

IFR TRAINING HOODS

BLOCKALLS TRAINING GLASSES

Designed by pilots for pilots. Blockalls™ resolve problems with existing view limiting devices. Weighing in at just under 1oz, it's easy to forget you are wearing them. Engineered to easily penetrate the seal of your headset eliminating the hassle of having to remove it first and can

be worn for extended periods of time without discomfort, thanks to the soft rubber nose piece and streamlined temple tips. Tailored off center viewing also keeps more of your time inside the flight deck rather than outside. Recommended by AOPA/ Flight Training.

THE HOODY

Provides a complete view of even the most sophisticated instrument panel. Weighs less than 2 oz. Stores easily in a flight bag with the flaps folded in. The Hoody® fits most caps. No hooks, no clips, just slips on and off. Easily molds to the bill of your favorite cap.....P/N 13-12753..... ---

HORIZON HALO IFR HOOD

- Seamless Compatibility with Glasses: Wear your prescription glasses or sunglasses comfortably without any compromise.
- Minimalist Design: Say goodbye to straps, clips, buttons, and hinges. Our design eliminates all small parts that can break or interfere with your headset adjustment, providing a hassle-free and reliable training tool.
- Quick and Easy Adjustment: Transition in and out of the hood effortlessly by simply adjusting your hat.
- Reflective and Matte Coatings: The reflective outer coating reduces heat retention, keeping you cool and comfortable.
- Unparalleled Comfort: The Horizon Halo VLD never touches any part of your body, providing an exceptional level of comfort. Train longer and more effectively without any discomfort or pressure points.
- Lightweight and Durable: Made from strong yet lightweight material, the Horizon Halo VLD is built to withstand the rigors of regular use while remaining easy to wear. Its robust construction ensures longevity, making it a valuable investment for your training arsenal.
- Vision Unaffected by Scarring or Scratching: Unlike traditional goggles, the Horizon Halo VLD maintains its clarity and functionality even if it gets scarred or scratched. Train with confidence knowing your vision will always be uncompromised.

CLOUD-EEZE™ IFR TRAINING GLASSES

Developed in order to balance the training value of a view limiting device without further limiting the pilot from being able to read his/her charts. Old Foggies™ blend of precision fogging and custom powered corrective lenses allows for the precise amount of the instrument panel viewing without any view of the horizon. Old Foggies™ are available in customizable powers with no need for a prescription. Available in Clear and Light Mirrored Tint (a reflective coating that eliminates glare without further limiting visibility). Available Powers: 1.5, 2.0, 2.5

JEPP SHADES

Replaces bulky, hard-to-use instrument training hoods. The improved design allows better student/instructor interaction. The Cockpit proven design works conveniently under headsets and the universal adjusting strap reduces pressure on the ears and temple. The Velcro™ strap fits comfortably and flip-up lens allows convenient IFR/VFR flight transition. The high quality polycarbonate lens is impact resistant.....P/N 13-404311..... ---

FOGGLES

A creative solution to the problems caused by wearing a large hood on your head. Foggles fit and feel like glasses, but the opaque frosting on the top and sides let you see only the instrument panel. Your out the window view is always foggy. Wear them with headsets and microphone with no interference or discomfort. They come with a protective carrying case and weigh only two ounces. Clear.....P/N 13-06500..... ---
Yellow.....P/N 17-00039..... ---

SUPER HOOD

Ideal with eye glasses or headsets it slides in under the headset without relinquishing control of the aircraft and it can be instantly removed at any time for a safe approach or landing. Blocks outside reference but provides a full panel view to reduce vertigo. Light weight (3 oz.) and comfortable.

P/N 13-30200 ---

IFR TRAINING GLASSES

Polycarbonate Lenses (UV Protected). Adjustable frames High brow area to prevent "peeking". Opaque frosting to simulate actual IFR conditions. Protective carrying bag included.

P/N 13-12050 ---

VIBAN

Weighs only 2 oz., making it easy to put on and take off during flight. Provides a perfect view of the instrument panel while providing complete occlusion forward and to the side. Even more, ViBAN folds compactly to fit in its own durable case and is easily stored in your flight bag.
