

FLASHLIGHTS

MAGLITE LED FLASHLIGHTS

MAG-LED™ Technology known for their obsession with precision engineering, craftsmanship and commitment to perfection, was not satisfied with the performance of a "regular" LED as a usable light source. They set their sights on producing a light source that would not only incorporate longer battery life, but would also have the kind of durability, reliability, and performance Maglite® flashlights are known for. With an emphasis on uncompromising performance, MAG-LED™ Technology is the result of that quest.

NEBO LARRY 500 FLEX WORK LIGHT

Whether you're working under the hood, on a construction site, or checking off your DIY to-do list, achieving bright, balanced illumination is crucial for getting the job done right. For years, professionals and enthusiasts have relied on NEBO's Larry Series work lights to handle any task. The all-new LARRY® 500 FLEX now joins this trusted product line, offering a compact design comparable to a pen light that fits easily into your pocket. Despite its size, it features a powerful 500-lumen C-O-B LED flood light capable of serving as both a white work light and a red task light, ensuring balanced area illumination for your workspace. Adding to its versatility, it incorporates NEBO's Flex-Power™ technology, allowing it to operate on the included rechargeable battery or two AAA alkaline batteries, ensuring continuous functionality in any situation. Its durable aluminum construction, impact-resistant design, rubber grip, and IPX7 waterproof rating guarantee reliability in both indoor and outdoor environments. The steel clip is ideal for carrying it on your belt or in a pocket and the magnetic base allows you to attach it to any metal surface for hands-free lighting. Equipped with C-O-B LED technology and 6 light modes, the Larry 500 Flex readily adapts to various situations while being bright and energy-efficient.....P/N 13-25783..... ---

BIG LARRY™ 2 POWER WORK LIGHT - STORM GRAY

The BIG Larry 2 outputs 500 lumens with the C-O-B work light and 200 lumens from the top flashlight. The red C-O-B light is perfect for distress signaling or roadside emergencies. The steel clip and magnetic base provide convenient hands-free lighting options.

4 Light Modes: • Top light (200 lumens) - 8 hours / 75 meters • Work light (500 lumens) - 2.5 hours / 31 meters • Red light (40 lumens) - 20 hours / 7 meters • Red hazard flasher - 40 hours / 7 meters

Design: • Fully dimmable • Direct-to-Red Feature • Memory Power Setting • Anodized aircraft-grade aluminum; water and impact-resistant • Steel belt/pocket clip • Powerful magnetic base.

NVIS FINGER LIGHT PRO

Standard Finger Light Pro lights are available in Red or White. These lights are not NVIS/NVG compatible. The new Pro version powers a 3mm White or Red LED specifically selected to match a laser cut LEXAN filter material.

The 3mm LED is recessed inside inside the body of the light. This means less lateral visibility, ideal to reduce canopy glare and increase light discipline. It was developed to accommodate the F-22, and was tested with several rotorcraft types.
