SPRAY SHINE™ SPRAY-ON CARNAUBA WAX

A specially formulated WATER BASED spray on CARNAUBA WAX. NO AMMONIA, NO SOLVENTS, NO SILICONE, NO GARBAGE! Spray Shine™ can be applied in the DIRECT SUN, Even on BLACK! If you can work on black paint in the direct sun, you've got every color covered.

Spray Shine™ WILL NOT turn white on rubber or black plastic. Spray Shine™ really does work! Spray Shine™ is not a spray wash. It is a serious spray wax that will give your ride an amazing shine! First, use MRON GLASS to thoroughly clean and wax the surface, then use Spray Shine™ after or between washings to help maintain the shine. Spray Shine™ will never smear or streak, EVER! (Do not use towels or cloths that have been washed with a fabric softener.) Formulated for paint, but found to work equally as well on any smooth non-porous surface.

Spray Shine™ was designed for the finest of finishes, car show enthusiasts, new car dealers and people who really like to take care of their vehicles. Just a quick spray and wipe will give your ride a complete new shine! Use Spray Shine™ on paint, glass, chrome, plastic, tile, lamps stoves, refrigerators, microwaves, mirrors, computer screens, etc.

Spray Shine™ will give a high gloss surface an amazing CLOUD FREE SHINE!! 16 oz..... P/N 09-03485.....

FLITZ ALUMINUM & FIBERGLASS POLISH

Flitz is a non-abrasive metal polish which can be used on all metal surfaces including polished aluminum, painted surfaces, and fiberglass. It is easy to apply and remove, and leaves a protective film to protect shiny surfaces up to 4 months A very popular multi-purpose polish.

FLITZ POLISHING AND BUFFING BALL

The Flitz 8" Polishing & Buffing Ball is made of a viscose felt material which is a cooling material vs. lambs wool or cotton which is a heating material. This way it doesn't burn the paint and can be used to buff leading edges without having to tape them. This ball works wonders with Flitz Products and makes polishing much easier, faster and more effective in less than half the time. It fits all drills and air tools and will buff out scuffs, oxidation tarnish, pitting, corrosion on all metals, paints, fiberglass, plastics, and wood. Re-usable & washable.

P/N 09-00554

FLITZ MICROFIBER CLOTH

The Flitz Buff 'n Wax Ball, 7" in diameter and 4" inches wide, is perfect for use on large, flat surfaces and ideal for waxing and buffing.

Use on all surfaces. Quickly and safely buffs out brake dust, scuff marks, light scratches, oxidation, chalking, tarnish, pitting & corrosion. Power-rated for speeds up to 2500 rpm. Self-cooling. Won't scorch or burn. Won't tear like foam buffers when hitting sharp edges. No exposed ball hardware to scratch surfaces.

Begins as a flat buff pad, but turns into a BuffBall as it spins on the drill. Made with soft, viscose felt separated into "polishing fingers" that will conform to concave, convex, and odd-shaped surfaces with ease. Use with Flitz metal, Plastic & Fiberglass Polish, & Flitz Wax Protectant for best results.

Machine washable: tumble dry low or hand wash with soap & water, air dry.

Includes a free 1.76oz tube of Flitz paste polish.

Size: 16"x16"..... P/N 09-00556
