FUEL MULE - AVIATION EDITION

The Smart Ass Fuel Mule electric fuel caddy solves a problem many of us have in our daily work or hobbies that has never been sufficiently solved before. And after getting that feedback from aviators, we here at Smart Ass Products have now added a package of upgrades specifically to better adapt this most amazing of motorized electric gas caddies specifically for AVGAS/100LL use and Aviation use. For the countless airplane/flight lovers that live in fly-in

communities and airparks across the USA and elsewhere. For the farmer/ agricultural flyer monitoring and crop dusting their fields. Where the pilots don't typically have fuel readily available onsite as it's a small privately owned air strip being used. We've got your solution in the Smart Ass Fuel Mule - Aviation Edition. Built Tough for Aviation: The Fuel Mule's rugged construction allows you to easily transfer 50 gallons, even on ramps with 22-degree inclines. The Smart Ass Fuel Mule Motorized 50-gallon gas caddy is powered by a 750w Brushless IP65-sealed motor and off-road tires, making it ideal for airparks, hangars, and aviation fueling on paved or unpaved airstrips/taxiways. Easy to use: Designed for confined areas and navigation through tight spaces (doorways even) and rugged terrain, it has a thumb throttle, hand brake, and an automated shutoff fuel nozzle to eliminate spills. Rechargeable onboard batteries allow for endless journeys to fuel your aircraft or equipment. One charge typically lasts 6-8 uses or more.

FUEL MULE - AVIATION EDITION

The Smart Ass FuelMule is the ONLY motorized electric gas caddy with pump holding up to 50 gallons to allow for effortless transporting of fuel to nearly any desired off road location. Made right here in the USA, you won't be disappointed. This is not your daddy's gas caddy. This is a whole new animal... a FuelMule you might say, the 911 of the Gas Caddy world. And it's a BEAST.

Powerful and Built Tough: Transport 50 gallons nearly effortlessly with the FuelMule's sturdy construction and overbuilt design, even on loading ramp inclines up to 22 degrees.. With a 750w Brushless IP65 sealed drive motor and off-road wheels/tires, the Smart Ass FuelMule Motorized 50 gallon gas caddy with pump conquers darn near any terrain effortlessly. It's powerful motor ensures easy climbs and the careful design ensures precise maneuvering, making it ideal for transporting fuel to any destination, on or off-road.

Simple to Operate: Designed for rough terrain and tight spaces, the Smart Ass FuelMule boasts user-friendly controls like a thumb throttle and hand brake to allow you to Start, stop, and climb hills and ramps effortlessly. And uses an automatic shutoff fuel nozzle to prevent spills. Rechargeable batteries offer several trips to fuel your boat or whatever you're fueling, easily recharged with the included charger.
